

World Capital of Sport 2019 Bid File
Taipei City

A Message of Welcome from the Mayor of Taipei City

2017 was as a turning point for the transformation of Taipei. Last summer, Taipei successfully hosted the 2017 Summer Universiade. Looking ahead to 2019, Taipei is ready to demonstrate to other cities its merits as a World Capital of Sport. After all, sport not only transforms cities, but also enriches society.

At the end of April 2018, the Taipei City Government produced a documentary in collaboration with National Geographic called "Inside Perspective": Taipei 2017 Universiade". It won first place for best documentary at the 51st World Fest-Houston International Film Festival and once again brought to light Taiwan's marvelous 2017 Summer Universiade. The Universiade was a tribute to Taipei City, and to the entire country of Taiwan. Despite various setbacks, the athletes on the court, the civil servants who stuck to their posts, and every one of the 18,000 volunteers all displayed unparalleled resilience. In this spirit, they created this miracle together. The 2017 Summer Universiade successfully showed Taiwan to the world, left an unforgettable memory shared by the citizens of this country, and brought honor to everyone who participated.

The end of the 2017 Summer Universiade marked a new beginning. Our team from the Taipei City Government continues to explore the value of sports. Taipei City features a dynamic sports culture. We believe that sports play a fundamental role in human civilization, offering answers to some problems faced by contemporary society.

"Sports are where youth flourishes."

On March 11, 2018, the Boy's Basketball Team of Songshan high school, Taipei City, won the HBL High School Basketball League Championship to the cheers of 15,000 spectators in Taipei Arena. In light of all their effort and unwavering determination, many people shed tears after the championship game. In sports, there is nothing quite like the sense of solidarity that is formed as athletes push themselves through rigorous levels of training to achieve their goals. The young players who courageously challenge themselves serve as sources of great inspiration and admiration.

In my experience, the knowledge learned in schools may become obsolete after just a few years. After all, knowledge evolves with the times. However, the experiences and interpersonal relationships developed by working as a sports team provide lifelong benefits even if they do not belong to the formal school curriculum. As mayor, I encourage young people to take advantage of their creativity and enthusiasm. We should let new generations lead us to new horizons and imaginations.

"Sports can be found in every part of the city."

In another 3 years, the population of individuals in Taipei City aged older than 65 years of age will exceed 20%. With declining birth rates, caregiving manpower will become increasingly tight. With the integrated resources of the municipal bureau, we assist our senior citizens to lead healthy and active lives. Therefore, in addition to promoting effective interaction, we recruited the Department of Sports to teach aerobic exercises at a suitable pace, so that the elderly are able to enjoy activities outside of the house.

Good design brings good experiences, and Linong Park is an example of good design. The municipal government incorporated the theme of a gym into the design of Linong Park. Single and parallel bars are combined with popular suspension training tools and kettlebells. Fitness demonstration guides can also be found next to the facilities to ensure safe exercise. The children's playground is connected to a series of interesting and challenging facilities, including race car-shaped seesaws, insect-shaped rides, and rotating flywheels, which develop children's skills related to balance, swinging motion, and cyclic motion. Our good designs attract people to participate in physical activities in the park. This marks another big step for Taipei City in its evolution as a civilized city.

Taipei is unique in that it combines modern western values of democracy, freedom, diversity, and openness with Chinese traditions. During Eid, over 50,000 Muslims gather at Taipei Main Station to pray facing Mecca. Taipei also hosts Asia's largest LGBT parade featuring more than 120,000 participants. These events further affirm Taipei's position as a diverse and open city, where people with different backgrounds and ideologies can settle and express their ideas freely. People use different themes at running events to convey a variety of ideas. The "Forrest Gump Cup Charity Run" has been held every year since 2010. It draws inspiration from the spirit of Forrest Gump, and encourages all runners to use willpower to overcome all physical inconvenience. In 2011, the Chinese Taipei Road Running Association held the Women Run Taipei, the first all women's run in Taiwan. On April 15, 2018, more than 18,000 female runners participated in the event. The organizer encouraged participants to adhere to their own beliefs and walk their own paths with the slogan of "Follow no one".

A foreigner in Taipei must be awed by a culture in which so much diversity is harmoniously woven together. Yet, this is the special characteristic of Taiwan. Sports present the various personalities of this city; sports are indispensable part to the lives of its citizens. Through exercise, people learn to look after their own health and connect with each other. Through sports, they empower themselves to realize their beliefs and challenge their personal limits. We sincerely welcome you to come exercise with us in Taipei City!

A Message of Welcome from the Commissioner

Sports make life splendid!

“A man should pray for a healthy mind in a healthy body.”
Juvenal, Roman poet

The outstanding performances of Taiwanese athletes during the 2017 Taipei Universiade not only brought Taiwan together, but also drew widespread recognition from across the world. Athletes spend their entire lives pushing themselves to go faster, higher, or stronger. In an endless commitment to their team, they honor and manifest the values of sports. As the host city of 2017 Summer Universiade, Taipei City and its residents cheered every athlete's performance in appreciation for the passion and achievements they brought to the city. After all, sports enrich our lives. We sincerely hope that the wonderful performances of these athletes encourages even more Taipei residents to exercise and play sports.

With the efforts of Taipei City Government over the past few years, our city has achieved goals that align with the core values of ACES Europe. By upgrading basic sports facilities and the quality of public services, we build a sport-friendly environment in which we can host world-class tournaments and meetings. In turn, such events create a sense of belonging and recognition to our city. Additionally, the announcement of tournament rules and conference talks with coaches and judges also promote a sense of sportsmanship and fairness. We also believe that the promotion of a healthy lifestyle and sports improves an individual's quality of life.

According to “2017 Investigative Study on Sports” conducted by Sports Administration, Ministry of Education, about 87.6% of Taipei residents participate in some type of exercise, while 34.6% of the population in Taipei do so regularly. The average rate of exercise per week is 3.49 times, and the average time spent with each exercise is about 66.67 minutes. These numbers are increasing each year.

We host various sports activities tailored to the needs of different age groups and genders, as well as individuals with special physical conditions. For example, we will be hosting the 9th Taipei Toddlers' Soccer Tournament this year. The goal of this tournament is to transform the passion, joy, sense of achievement, and pursuit of self-improvement found in sports to those for life. As Taiwanese society gradually becomes an aging population, we started promoting “Exercise Program for Happy and Active Seniors” in 2016, which includes a tour of fitness classes throughout the 12 districts of Taipei City. The goal of these classes is to teach seniors that they are “never too old to live, learn, and exercise”, and the importance of maintaining a healthy body and mind. By the end of 2017, the tour resulted in the successful opening of 140 class venues in which

1006 exercise sessions were held and about 25,695 seniors participated. We hope to increase the numbers of participants in 2018.

Taipei City also held a series of activities and conferences about exercise titled, “Let's Get Crazy About Sports, Women.” In this program, we hope to convey the benefits of exercise to women, parents, and children, so that they can maintain healthy bodies and strengthen family ties through regular exercise.

In terms of assisting people with disability in adapting to certain sports, the Taipei City Government holds meetings every 2 years in which each of the twelve districts invites Taipei residents with disabilities to form a team and participate to learn good techniques. It also assists them in further developing abilities to function in daily life and a positive attitude towards leisure activities. Moreover, the event also provides a chance for family members and caregivers to also join in on the fun. In the 2018 National Disabled Games, the Taipei City team went on to receive 207 gold medals, 110 silver medals, and 66 bronze medals. For 7 consecutive years, it was the team with the most medals. The city government's Department of Sports will continue to build a sports-friendly environment that encourages more disabled warriors to overcome any physical and mental limitations.

In 2018, we remodeled the Jingmei Swimming Pool to promote sports in a local community. Moreover, the collaboration between 377 sports clubs and associations with the Taipei City Government has introduced all kind of sports to different corners of the city.

We hope that everyone can enjoy the passion, pleasures, and sense of achievement that comes with playing sports, as well as understand how doing so can enrich our lives. It is the core idea of “Sports make life splendid!” that motivates Taipei City to promote sports events. If selected to be the World Capital of Sports, Taipei City will be honored to share such a belief with other cities around the world.

Mr. Gian F. Lupatelli
President and Founder
ACES Europe
Rue de la Science 14 b, 1040 Brussels, Belgium

3 May 2018

Dear Mr. Lupatelli,

I was delighted to hear that Taipei City is a candidate city for 2019 World Capital of Sport. On behalf of the Sports Administration, Ministry of Education (MOE), I offer my wholehearted support for Taipei's bid to be named 2019 World Capital of Sport.

Taipei City is an international metropolis characterized by vitality and living convenience. The city has substantial experience in holding large-scale international sports events, examples of which include the 2009 Deaflympics and the highly-successful 2017 Taipei Universiade; these events were praised by the International Committee of Sports for the Deaf and the International University Sports Federation, respectively, as amongst the best Deaflympics/Universiade ever held. Held in the summer of last year, 2017 Taipei Universiade brought over 10,000 athletes and staff from 134 countries to Taipei, and all witnessed the great success of the games alongside enthusiastic crowds of local spectators.

As the highest sports administrative agency in Taiwan, the Sports Administration, MOE always makes every effort to promote sport. As the leading city of Taiwan, Taipei City is an important symbol for the world of the success of Taiwan's promotion of sport. Taipei City has complete, high-quality sports infrastructure, convenient transport, a city government that has much experience of holding international sports events, and sound sports organizations, and is also famous for the warmth and hospitality of citizens; the city is first-choice as host city when Taiwan is bidding for multi-sports events.

Taipei City is also a diverse city where the people love sport. Here, you can engage in various kinds of sport. I sincerely believe that if Taipei City is named 2019 World Capital of Sport it will not only inject new vitality into sport on a national level, it will also lead to greater participation in sport by citizens nationwide, and will also help sporting circles in Taiwan further align with their international counterparts, helping make Taiwan a beautiful "sport and LOHAS" island.

Best regards,

Lin Te Fu

Te-Fu Lin
Director-General
Sports Administration, Ministry of Education

Mr. Gian F. Lupatelli
President and Founder
ACES Europe
Rue de la Science 14 b · 1040 Brussels · Belgium

Dear Mr. Lupatelli,

We, the Taipei Municipal Athletics Federation /the Chinese Taipei Sports Federation, sincerely ask your support to promote Taipei as 'the 2019 World Capital of Sport'.

We, the Taipei Municipal Athletics Federation, established in 1946, and have operated for over 72 years. Our members include 12 district Athletic Associations and 104 sport associations/committees of Taipei. We promote sports and sports knowledge to citizens. We train athletes and increase the number of sport participants in Taipei. Furthermore, most of Taipei sport associations are incubate by us in the beginning. We participate and witness the development of sports in Taipei from zero to great. Now we, with our members, organize hundreds of athletic and public sport events · and the participants is around 300,000 each year. In 2017, we ask other Taiwan sport associate to join and fund 'the Chinese Taipei Sports Federation' to conduct more sports activities with sister cities overseas. We are glad to see Taipei City government also chip in actively.

Both official organizations and sport associations in Taipei are committed to promote various sports and invest lots of resources to encourage the citizens to participate sport activities. As a cloudy Asia city, Taipei provides not only adequate venues and sports facilities for large-scale events, but also enough space for citizens to hold daily sport activities. Furthermore, in Taipei, there are good atmosphere of sports, experienced event managers, excellent sports talents, and various sports activities. Various type of sport activities develop flourish in Taipei. Besides the Olympic sports, there are also many other sports popular in Taipei, such as Gate Ball, dance, kendo, judo, Tai Chi, and more, with large amounts of participations.

Over the past few years, through the terms of two mayors, Taipei City Government not only promote sport activities, but also host international events, such as the 2017 Taipei Summer Universiade. The success of Universiade introduce Taipei to the world. Furthermore, the success also inspire the passion of sports and the sense of unity among citizens. In 2019, Taipei would also host international events, such as Judo Asian Championships. Taipei promote sports in action. Through sports activities, Taipei put effort to exchanges social integration, and to unit ideas between societies and international cities.

Because the Taipei City Government agree with the philosophy of ACES, they wish to apply for the 2019 World Capital of Sport. We, As a long and rich experienced sport association of Taipei, are also glad that current Taipei mayor would like to emphasize the function of sports and the Urban sports diplomacy. We sincerely ask your support for Taipei to be promote as 'the 2019 World Capital of Sport'. We believe that the pride would encourage and inspire Taipei City Government to continue fulfilling its responsibilities as a global citizen to promote sports in Taipei and sister cities.

Taipei Municipal Athletics Federation / Chinese Taipei Sports Federation
Chairman

Lu Wei Chen

IV. Contact information

I.Foreword

Taipei is the capital of Taiwan, has a population of 2.7million and is one of the most progressive and prosperous cities in Asia. Taipei City boasts a wealth of experience handling international sports events, a sports friendly environment and a thriving sports industry.

In addition to sports, the Taipei metropolitan area, a combination of culture and multimedia information technology. In 2018, Fodor's, the world's largest travel publisher, selected Taipei as one of its 52 global travel destinations.

Taipei City has hosted the 2009 Deaflympics and the 2017 summer Universiade, which was praised by FISU president Oleg Matytsin as one of the best Universiades FISU had ever seen. BBC China also reported that the 13-day event sold 720,000 tickets (87% of the total available) and brought in more than NT\$ 140 million ---the highest sales of any Universiade to date. The 22 athletes from Taipei City were cheered on enthusiastic friends and family in their hometown and won nine gold medals, six silver medals and five bronze medals.

In recent years, ten or more international events and competitions have held in Taipei each year. In 2018 we shall be hosting the Tour de Taiwan, ISU Four continents Figure Skating Championships, SANTAIZI ATP Challenger, WTA Taiwan Open, ONE Championships, Amway eSpring International Women's 9 -Ball Championship, Asian Judo Open, Asian Men's Volleyball Cup, World University Roller-Sport Championship and the World Taekwondo Poomsae Championships.

Taipei City has diverse cultural offerings. Taipei City Government has hosted events with local character, such as the Taipei Dragon Boat Festival --- a traditional Chinese cultural festival. In 2017, 227 teams from eight cities in six countries travelled to Taiwan to take part in the festival, making a total of 5,700 contestants.

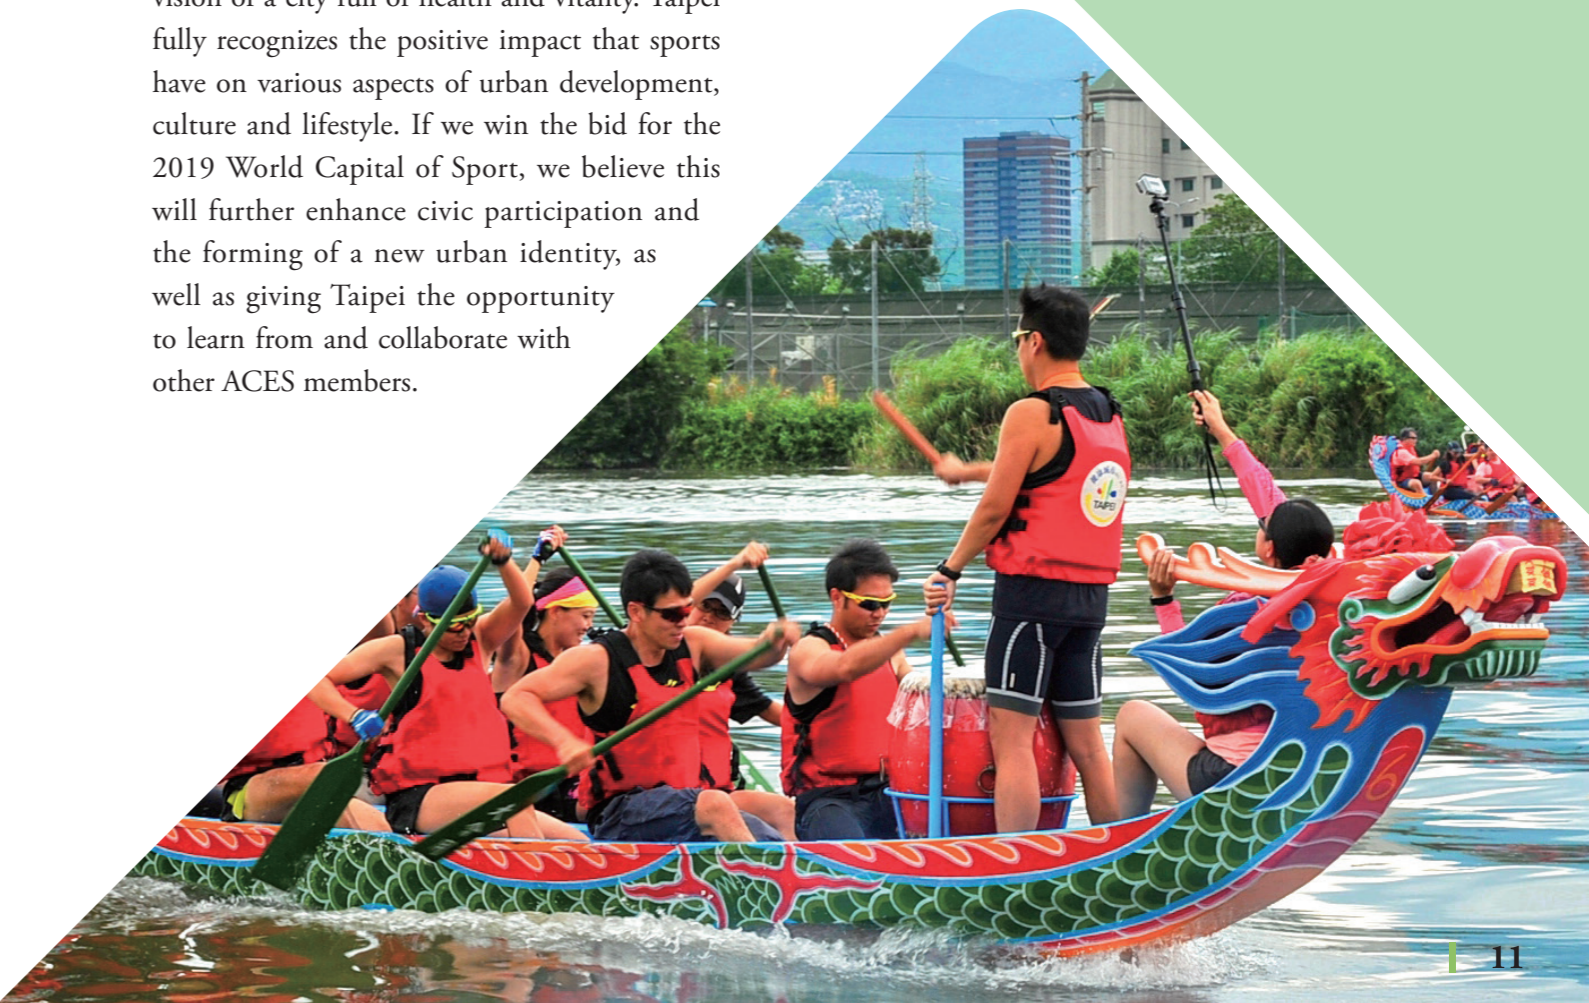

The course of the annual Taipei Marathon in December weaves past famous landmarks and beautiful landscapes, from the plaza in front of the Taipei City Government buildings, through Taipei 101 and the Old City Gate. With more than 27,000 runners competing across the Taipei cityscape, the event is heading for IAAF certification as a world-class marathon.

In additions to such sporting events, Taipei City also has abundant sports facilities for public use. According to 2017 statistics, the Taipei Department of sports manages 493 different types of ball games and sports venues, and there are also a number of sports venues meeting international competition standards. The annual number of users is more than 4.4 million.

The construction of new sports venues and the refurbishment of existing venues is also moving towards green design, smart building, gender-neutral, universal design so that sports can be enjoyable for people of all ages, genders and identities. The Taipei City Government has also set up National Sports Center in 12 administrative districts, attracting about 10 million visitors a year, with 92.09% customer satisfaction.

The sports industry is also an important part of economic development in Taipei. According to a 2017 study, the Taipei sports industry comprises 4,204 enterprises and 36,204 employees. The total output of the sports industry in Taipei is NT\$ 87.4billion. The gross output of the sports industry in Taipei accounted for 1.09% of the total gross output of Taipei City.

At present, 87.6% of people in Taipei take apart in sports and 34.6% do so on a regular basis--- on average around 3.5 times per week for 67 minutes a time. Our city is becoming the vision of a city full of health and vitality. Taipei fully recognizes the positive impact that sports have on various aspects of urban development, culture and lifestyle. If we win the bid for the 2019 World Capital of Sport, we believe this will further enhance civic participation and the forming of a new urban identity, as well as giving Taipei the opportunity to learn from and collaborate with other ACES members.

World Capital of Sport 2019 Bid File
Taipei City

GENERAL INFORMATION OF THE CITY.

1. a) Name of the city. b) The population. c) Which department in your city is responsible for sports? d) Contact person.

Taipei City is the capital and municipality of the Republic of China. It is located in the Taipei Basin in the northern part of Taiwan. It has 12 districts under its jurisdiction, covering a total area of 271.8 square kilometers and a total population of 2.618 million. Taipei City is the nation's premier city and serves as the country's index for outstanding urban governance. Its policy focus is on increasing both quantity and quality of life. The goal is to improve citizens' general well-being and optimize their living environment.

On August 10, 2012, the Taipei City Government upgraded the original Taipei City Sports Bureau to the Department of Sports, Taipei City Government, and became the first primary agency responsible for sports-related affairs. It is committed to improving the sports environment for citizens and creating a city suitable for athletics. In doing so, it hopes to achieve the goal of universal participation and a refinement of sports culture, as well as elevate the quality of life and health index throughout the city. With the vision of integrating sports into the lives of Taipei City's citizens, we emphasize the notion of "Sports for Anyone, Anytime, Anywhere" and compel the city to evolve into a "Premier and Healthy Global City".

In recent years, the city has spared no effort to transform physical education and sports. Building sports centers, hosting marathons, setting up public bicycle sharing system (Youbike) and bicycle lanes, and promoting various international sports events are a few examples that allow citizens to experience the vigor of Taipei City through sports. In particular, the city successfully hosted the Taipei 2017 Universiade. Young professional athletes from around the world came to Taipei City, making it a true world capital of sports.

The Department of Sports, Taipei City Government is responsible for all sports-related affairs. The contact person for the "World Capital of Sport 2019" project is Yixin Huang. Telephone: 886-2570-2330 ext. 6611. Email: tms_alice0227@mail.taipei.gov.tw.

SPORT INFRASTRUCTURES – SPORT FACILITIES (Indoor/Outdoor)

2.1 Provide a detailed list of sport infrastructure facilities according to type, purpose and condition.

Due to the large number of sports venues in Taipei City, this chapter gives a brief introduction to the main sports venues in the city. The list on various types of sports venues can be found in Appendix I. And about the sports venue map of Taipei City, please see Appendix II. (Link : <https://www.google.com/maps/d/viewer?mid=1lYk2-WN8dCdJSEXIMc7HJ0ifZCKuPeVl&ll=25.067265227308106%2C121.49773611111107&z=12>)

(1) Taipei Gymnasium

The Taipei Gymnasium was originally a badminton hall. It was built in 1958 by the Taipei City Government's auxiliary badminton association. In 1987, the Taipei City Government took over and demolished it. Later in 1989, it was rebuilt as the martial arts stadium for the Taipei Physical Education College (formerly the University of Taipei). completed in 1994. It is currently a multi-purpose gymnasium.

The Taipei Gymnasium is one of the oldest buildings among Taipei City's indoor venues, often referred to as the "red building" due to its red exterior. It is an important component of Taiwan's sports culture and is an indispensable sports hall in Taipei City.

The main building of the gymnasium has 7 floors. The underground parking lot has 159 parking spaces. The 1st, 4th, and 7th floors are mainly in use. Each floor of the building can simultaneously accommodate 1,500 to 2,300 spectators. The venue uses maple floors for sports competitions. In addition to hosting various sports competitions, it also allows the general public to engage in various indoor-related sports activities.

The Taipei Gymnasium has become the leading choice for major domestic and international sports events due to its complete facilities and convenient transportation, with both MRT and bus stations situated in front of the venues. All major international competitions are held in the Taipei Gymnasium, including badminton games for the Taipei 2017 Universiade, Division I games for the High School Basketball League, Chinese Taipei Open, Taipei Asian Open, Chinese Taipei Junior & Cadet Open, Four Continents Figure Skating Championships, and WDSF Taipei Open.

(2) Taipei Municipal Stadium

The Taipei Municipal Stadium was completed in 1956. The track initially was built with a mixture of sandy soil and cinder. It was later converted into brick powder. In 1975, it was reconstructed and became the nation's first running track with a synthetic track surface.

Currently, the Taipei Municipal Stadium is a multi-purpose stadium. It was officially opened on July 23, 2009. The facilities include a 400-meter track and field stadium and a 300-meter warm-up track and field

track. In November 2015, it was awarded the Silver Intelligent Green Building Emblem. The architectural design presents the overall appearance of "Aerodynamic Avian Architecture" that also inspired the Taipei Arena. The Taipei Municipal Stadium also joins with the Songshan Sports Center and the Taipei Gymnasium to form the "Taipei Dome", an important landmark in Taipei City.

The Taipei Municipal Stadium has received the IAAF Class 1 Facility Certificate. It is the 54th in the world and the second in Taiwan to achieve this certification. The football field is also in line with the provisions of the Federation International of Football Association (FIFA). It has also been the main venue for the 2009 Summer Deaflympics and the Taipei 2017 Universiade, where the opening and closing ceremony as well as the track and field competition were held. The football field also complies with the provisions of the Federation International of Football Association.

(3) Tianmu Baseball Stadium

The Taipei Tianmu Baseball Stadium, referred to as the Tianmu Baseball Stadium, is a baseball stadium located in Tianmu, Shilin District, Taipei City. The construction of the Tianmu Baseball Stadium originated in 1996. The Taipei City Government decided to merge the Taipei Municipal Baseball Stadium with the surrounding stadiums and build the Taipei Arena. Therefore, the construction of the Tianmu Baseball Stadium began on March 25, 1997. It was put into use on August 15, 1999 and replaced the Taipei Municipal Baseball Stadium that was demolished in 2000.

Due to the need to optimize the stadium's accessibility for the audience, the triangular area surrounded by Zhongcheng Road, Shidong Road, and the baseball stadium is organized into an urban green space. The water sculpture design at the center of the square incorporates the theme of "sphere". The stainless steel ball is an integration of sculpture and environment that casts a reflection on the nearby activities. Aa expanse of Taiwanese rain trees are planted in the baseball stadium, forming a unique display with those that are planted along Zhongcheng Road.

The main stadium is located on Zhongcheng Road and the northeast side of Shidong Road, next to the Tianmu Sports Park. The distance of the left and right outfields from the home plate is 325 feet. The distance of the center field from the home plate is 400 feet. There are large monitor screens and digital signage; the infield has 10,000 seats and no field seats; the site uses natural turf except for areas that are covered in red clay.

Well-known domestic and international baseball events have been held at the Tianmu Baseball Stadium, such as Black Panther National High School Baseball Contest, Chinese Professional Baseball League Championship, Baseball World Cup, and baseball games for the Taipei 2017 Universiade.

(4)Xinsheng Park Baseball Field

The Xinsheng Park Baseball Field was built in 1983 by the The Tenth Credit Cooperative of Changhua to host softball games. The government provided the land for the company to build the stadium. It was then handed over to be managed by the Parks and Street Lights Office, Taipei City Government. After the completion of the construction in 1991, it was handed over to the Department of Sports, Taipei City Government (formerly the Taipei City Sports Bureau). The distance of the left and right outfields from the home plate is 360 feet. The distance of the center field from the home plate is 300 feet. The infield is covered with a layer of brick powder, while the outfield is made of natural turf.

The Xinsheng Park Baseball Field is situated near Yuanshan, and the measurements of its ground is very close to the international standard for baseball stadium facilities. However, due to safety reasons stemming from its proximity to Taipei's Songshan Airport, there is no night lighting and only daytime games are hosted.

The Xinsheng Park Baseball Field is one of the most important baseball venues in Taipei City, boasting a diverse use. In addition to hosting a number of baseball and softball games, the venue also opens up for the general public. Well-known local and international baseball events have been held here, such as Xie Guocheng Cup Little League Championship and U-12 Baseball World Cup.

(5)Youth Park Baseball Field

The Youth Park Baseball Field was originally the training ground in Guting District during the period of Taiwan under Japanese Rule. It held the first military flight demonstration in Taiwan. It was also used as a horse racing venue before being converted to an airport known as the "Taipei South Airport" due to its opposite location from the Songshan Airport. Taipei City had only one baseball stadium before 1974. An inadequate number of venues led to the planning and building of the Youth Park Baseball Field. Its predecessor was the South Airport Golf Course, which was transferred from the Ministry of National Defense to the Taipei City Government in 1974 to be used as a youth park site and baseball stadium.

In 1999, an underground parking lot was built under the Youth Park Golf Driving Range and the Youth Park Baseball Field to solve the problem of lack of parking space in the Wanhua area. The space was reopened in 2002. In May 2003, Mayor Ma Ying-Jeou announced that the Youth Park Baseball Field will be renovated into a dedicated baseball stadium for local youth baseball and softball leagues. The distance of the left and right outfield from the home plate is 290 feet. The distance of the centerfield from the home plate is 315 feet. The infield is covered with a layer of brick powder, and the outfield is made of natural turf.

After the Youth Park Baseball Field was opened, it served as the outdoor venue for the National Games . Several large and small events are also held here, such as Xie Guocheng Cup Little League Championship and U-12 Baseball World Cup.

(6)Taipei Extreme Sports Training Center

The establishment of the Taipei Extreme Sports Training Center originated when the Sports Committee of the Executive Yuan listed extreme sports as one of the important sports events of the year. Extreme sports have been commonly rejected in the past, but they have sprouted in our country as part of a global trend. The purpose of the center is to increase public awareness and participation in extreme sports and to reach out to international players so as to improve the talent of domestic players and serve as a venue that provide healthy and legitimate activities for young people.

In line with the sports policies, the Taipei Extreme Sports Training Center was completed in 2010. The two circular walls of the training center simulate the trajectory of air flip. The main building has two floors, and the indoor building is about 170 square feet. The space plan includes a weight training room, player's lounge, coach's lounge, office, conference room, bathroom, etc. The sports facilities include a park area that meets the international standard, a large halfpipe (length: 18 meters/width: 15.5 meters/height: 5 meters), an elliptical shape halfpipe (length: 12 meters/width: 11 meters), a rock climbing range (height: 5 meters/width: 5 meters), and a cement skateboarding field.

The center is open to the general public on weekdays for free. The Taipei City Government holds regular national competitions and seminars to provide more opportunities for people to watch and experience extreme sports such as skateboarding, cycling, extreme roller-skating, and rock climbing, in order to present the versatility of the “Taipei Extreme Sports Training Center” and the premier quality of extreme sports.

2.2 Provide a detailed list of sporting facilities that the municipality plans to build up to the year for which present the candidature.

List of Sports Facilities in Taipei City in 2018							
No.	Management agency	Location	Type	QTY	Sport	Budget	Year of completion
1	Department of sport	Donan Riverside Sports Park	Seven-person football field	1	Football	3,500,000	2018
2	Department of sport	Huazhong Riverside Sports Park	Seven-person football field	1	Football	3,000,000	2018
3	Department of sport	To be Confirmed	Skateboarding field	1	Extreme sport	12,759,996	2019
4	Department of sport	Taipei Tennis Center	Tennis Court	1	Tennis	1,961,237,600	2018
5	Department of sport	Taipei Heping Basketball Gymnasium	Gymnasium	1	Basketball	2,359,203,280	2018
6	Department of sport	Jingmei Swimming Pool	Swimming Pool	1	Swimming	24,476,251	2018
Total				6		4,364,177,127	

2.3 Provide the total amount of municipal expense for the maintenance of sport facilities in the last three years. Breakdown by type of facility.

(1)Sports venue (field) maintenance funds:

- A. Purpose:
Maintain the operation and use of public sports facilities, promote the planning and refurbishment of sports facilities, and optimize facilities and equipment for sports venues.
- B. Handle the maintenance and management of various sports venue facilities under the jurisdiction of this council and cooperate with its policy to take over the management of sports venues under the jurisdiction of the government and actively improve the facilities and equipments so as to achieve the effectiveness of unified maintenance management.
- C. Develop relevant management points and fee bases for public sports facilities and adopt the supervision and guidance mechanisms for public sports venue facilities to instill the concept of paying among public users so as to strengthen the management level of sports facilities.

(2)Budget:

- A. NT\$117,091,679 in 2015.
- B. NT\$111,048,771 in 2016.
- C. NT\$144,198,109 in 2017.

(3)Expense:

Content	Description
Operating Expenses	1. Costs of maintaining the utilities required for operation for all stadiums and riverside sports venues (including new sites) under management. 2. Communication costs required for the daily use of venues, such as telephone service, fax service, and monthly internet service.
Insurance	1. Public liability insurance for all stadiums and riverside sports venues (including new sites) under management.

Content	Description
Daily Remuneration	1. Attendance fees and transportation fees for the experts and scholars of the Taipei Dome BOT Coordinating Committee. 2. Paid service of 2 contracted managers for the execution of operation contracts and the administration of other related business affairs in the Taipei Dome BOT project. 3. Attendance fees of visiting supervisors for the assessment of sports facilities.
Consumable Items and Materials	1. Water hose used for turf conservation on running tracks, baseball fields, softball fields, football fields, rugby fields, and other sports fields. 2. Turf fertilizer and field chalk for baseball fields, softball fields, football fields, rugby fields, and other sports fields. 3. Pitcher's plate, home plate, and base bag reserved for baseball fields. 4. Various types of court fence, block net, tennis net, badminton net, and water remover. 5. General lighting equipment, water and electricity hardware, venue equipment supplement, handling fees, and canvas hanging fees for all venues under jurisdiction. 6. First-aid medicines and environmental agents for all venues under jurisdiction. 7. Costs of environmental hygiene and disinfection operation at each venue under jurisdiction. 8. Costs of fuel for equipment such as lawn mower, generator, lift, and work trolley.
General Affairs	1. Outsourced security services (manpower) for Taipei Dome, Tianmu Sports Park, Taipei Extreme Sports Training Center, sports venue under the XinSheng Expressway, boat equipment storage at the dock area under the Dazhi Bridge, and etc. 2. Mechanical security services (electronic) for Xisheng, Youth Park Baseball Field, Taipei Extreme Sports Training Center, Jingmei Swimming Pool, and etc. 3. Outsourced cleaning services and field mowing services for all stadiums and riverside sports venues under management. 4. Outsourced cleaning services and maintenance services of sports floor for Taipei Municipal Stadium and Tianmu Sports Park. 5. Outsourced inspection services for Taipei Gymnasium, Tianmu Sport Park Tennis Court ticketing office, as well as all stadiums and riverside sports venues under jurisdiction. 6. Turf maintenance, tree care, and landscaping services for Taipei Municipal Stadium, Tianmu Sports Park, sports venue under the XinSheng Expressway, and Taipei Extreme Sports Training Center. 7. Operation of laying sand and brick powder on baseball fields, softball fields, football fields, and rugby fields. 8. Maintenance and regular testing for rented water fountains in all venues under jurisdiction. 9. Fees for the use of photocopiers at Taipei Dome, Taipei Municipal Stadium and Tianmu Sports Park. 10. Overtime meal allowance. 11. Commission fees charged by supermarkets, financial institutions, and telecommunication agencies for venue rental. 12. Costs of maintenance and management training at Taipei Extreme Sports Training Center.

Content	Description
Facility Maintenance	<ol style="list-style-type: none"> 1. Maintenance fees for fences, screens, and collision walls for baseball fields, softball fields, football fields, rugby fields, tennis courts, basketball courts, and etc. 2. Lighting maintenance fees at Taipei Municipal Stadium, Taipei Gymnasium, Tianmu Baseball Stadium, Xinsheng Park Baseball Field, Youth Park Baseball Field, and etc. 3. Maintenance fees for digital scoreboard and full-color LED screen at baseball stadiums. 4. Maintenance fees for sports equipment, apparatus, and electrical machinery at Taipei Municipal Stadium, Taipei Gymnasium, and Tianmu Baseball Stadium. 5. Maintenance fees for precision instrument, sports equipment, broadcasting and sound reinforcement system, audio equipment, and etc. for all venues under jurisdiction. 6. Maintenance fees for monitoring system and fire safety equipment at all venues under jurisdiction. 7. Maintenance fees and inspection services for electromechanical facilities as well as high and low voltage electrical equipment at all venues under jurisdiction. 8. Costs of elevator maintenance at Taipei Gymnasium, Taipei Municipal Stadium, and Tianmu Baseball Stadium. 9. Maintenance fees and operation costs for air-conditioning equipment at all venues under jurisdiction. 10. Costs of structural safety assessment and construction safety inspection at all venues under jurisdiction. 11. Long-term monitoring fees for soil and water conservation and retaining wall at Taipei Extreme Sports Training Center.
Handling Fees	Disaster rescue and evacuation of riverside park equipment, container, and dragon boat.

(4) Expected results:

- To take over management of the sports facilities under the jurisdiction of the government, we will integrate the concept of sports parks to organize various block-shaped and strip-shaped sports fields. We will operate and manage them in a diversified manner to maximize the scale of sports facilities.
- Unify maintenance and management of the riverside venues. The standardization of the same type of facility renovation and site use rules can save public expenditure and improve administrative efficiency. It is estimated that the number of users can be increased to 600,000.
- Integration of Information Technology
Build an integrated system that provides functions for reserving venue rentals, querying payment data, and compiling statistical analysis reports. It will also compile data from mobile devices to provide relevant contractors helpful information for understanding trends and assessing future directions.
 - Provide people with a variety of convenient payment methods:
This council is about to take over a large number of venues. At present, we are planning to provide various types of payment method so as to enhance the convenience for the general public and increase administrative efficiency.

- Increase administrative efficiency

The application procedures and refund procedures for various venues are complex. Through the construction of electronic payment services, the manpower, material and time costs of management operations can be reduced.

- Skateboarding has been included in the 2020 Tokyo Olympics competition. While city's extreme sports population is expected to increase, extreme sports are considered high-risk activities, and this city has only one professional extreme sports venue. In addition to the increasing usage rate, maintenance of preventive panel screws, regular high pressure cleaning, emergency handling, and improvement on safety are all extremely important. The bureau will create a budget to organize on-site management to provide comfortable and safe sports venues for the general public.**

2.4 Provide the average investment for sports facilities in the last three years.

Sports promotion in Taipei City can be divided into two levels: fitness culture and physical education. "Fitness culture" is led by the Department of Sports, Taipei City Government; "physical education" is led by the Department of Education, Taipei City Government. The Department of Sports is mainly responsible for business affairs related to the grassroots sports training stations.

(1) Social Physical culture:

- Sports facilities (fields) maintenance funds:

- NT\$154,732,021 in 2015.
- NT\$192,636,692 in 2016.
- NT\$217,086,071 in 2017.

- Sports facilities (fields) repair funds:

- NT\$399,593,475 in 2015.
- NT\$99,903,988 in 2016.
- NT\$127,365,495 in 2017.

- Basic training station renovation funds:

- NT\$7,589,280 in 2015.
- NT\$8,296,597 in 2016.
- NT\$9,329,800 in 2017.

(2) Physical education:

To improve the city's level of school athletics, as well as strengthen the potential of sports team training and fitness performance, this municipality effectively develops and promotes the results and atmospheres of Taipei City's student sports competitions, as well as specifies how all levels of schools in Taipei should have refined sports development facilities and equipment plans.

There are three main objectives: First, to effectively and significantly improve the athletic standard of school sports teams. Second, to effectively and significantly enhance the physical fitness of students. Third, to effectively and significantly raise the scores of the city's sports games.

In terms of funding, the Department of Education, Taipei City Government's expenses on subsidized school sports facilities and equipment was NT\$6,382,9,152 in 2015, NT\$73,956,013 in 2016, and NT\$77,714,495 in 2017.

2.5 Is there a sport development plan in your city/town? What are its main aims? Planned investments in the next three years.

(1) Social Physical culture:

The Taipei City Government has administered sports promotions and survey programs from 2013 to 2017. Its main purpose is to understand the citizens' needs for sports and their preference on sports activities. In the next three years, we will aim to expand the sports population, strengthen competitive sports, and optimize the quality of venue services.

A. Expand the sports population:

- Counsel district sports clubs, individual sports associations and sports centers to provide suitable sports activities for women, employees, seniors, and physically and mentally disabled.
- Consult and lecture on sports knowledge and sports injury prevention.
- Cooperate with the Department of Civil Affairs, Taipei City Government and Department of Social Welfare to provide information for new residents.

B. Improve on competitive sports:

- Refine each of the 351 basic athletes training stations in the city and apply for environmental improvement subsidies, facilities and equipment subsidies, subsidies for the employment of foreign coaches, grants for foreign competition and overseas training, and grants for elite athletes.
- Establish the city's advantages, potential strengths, basic categories, and supporting measures for sports science training for competitive sports.
- Have more than 20 sports injury protection stations, 6 sports injury protection centers, and 1 physical therapy facility among schools.

C. Optimize the quality of venue services:

- Improve the function of the sports centers and integrate sports fields around the city for the reinforcement of a diverse and convenient sports environment.
- Develop reference standards for the repair and reconstruction of sports facilities in Taipei City, and implement the principles of age friendliness, high efficiency, low energy consumption and sustainable management for the renovation of sports facilities.
- Restore the facilities of existing sports centers, improve universal design for greater accessibility, and create a quality sports environment.
- Integrate each of the 525 sports venues (grounds) in this municipality and unify the sports venue (site) offices to improve the city's sports environment maintenance.
- Provide more convenient services by utilizing IT applications, providing diverse payment methods for sports venue rental, setting up and implementing energy saving facilities, creating a tour guide for the sports venues in the city, formulating unified format signs, and adding QR codes.

D. Improve the quality of outsourced venues:

Operators of outsourced venues (such as the city's sports centers and park swimming pools) will be asked to develop sporting facilities and equipment suitable for elders, improve public service programs, provide sports health knowledge through scientific research, and develop innovative sports service mechanisms (such as the integration of EasyCard at sports venues). Annual evaluations will also be conducted for outsourced vendors to determine the basis for reinvestment when their contracts expire. The main objective for the next three years is to invest in the operation of 6 sports venues (including the city's sports center and park swimming pool).

(2) Physical education:

A. Strengthen students' fitness performance and develop their exercise habits, implement SH150 and improve their physical fitness pass rates: The school plans for students to spend more than 150 minutes per week on exercising, so that they can complete the four fitness tests of "Seated Forward Bend", "Standing Long Jump", "One Minute Sit-Up Test", and "800/1600 Meter Run" with an annual increase in pass rates to more than 60%.

B. Appoint specialized P.E. teacher and cultivate the potential for primary development:

In order to expand the elementary sports population and increase the number of specialized P.E. teachers, we plan to conduct standardized tests to recruit specialized sports teachers for elementary schools starting from the 2018/19 academic year. We expect the P.E. teachers of the city's elementary schools to not only teach the physical education curriculum, but also contribute to the construction of sports culture in schools, the development of student sports expertise, and the rooted investment in the city's competitive sports talents.

C. Organize sports seasons and promote student participation:

In order to promote the exchange of various athletic sports between schools, enhance the level of various competitive sports in the city, and organize various sports championships, we plan to conduct seasonal competitions to strengthen the publicity campaigns of sports activities and promote student participation.

D. Incorporate the cooperation between industry and education to facilitate steady advancement of student athletes.

Encourage schools to combine corporate social responsibility with coordinated curriculum to help empower all types of outstanding athletes in competitive sports, so that student athletes can have a comfortable space to realize their potentials, improve competitive skills, and enhance the performance of sports competitions.

E. Assign full-time coaches to cultivate outstanding athletes:

The goal is to designate outstanding sports talents as full-time sports coaches and to assist the city's schools in the training or guidance of sports teams in order to cultivate excellent sports players. We will also build an exit program to maintain and enhance the quality of the city's full-time sports coaches.

F. Funds:

In order to promote the sports development program, we need to invest NT\$161,071,396 each year, bringing the total amount to NT\$483,214,188 for three years.

2.6 Detail the annual budget of the Department of Sports and the percentage that this amount represents of the total budget of City Hall.

List of recent six-year budget of Department of sport						
Unit: New Taiwan Dollars/NTD						
Annual Budget	2018	2017	2016	2015	2014	2013
Annual Revenue						
Department of sport	267,867,735	3,468,662,499	2,110,420,641	1,036,757,406	390,678,087	221,203,393
City Government	164,378,818,911	168,939,299,350	163,472,812,919	163,476,035,750	165,265,414,587	156,656,803,318
Percentage	0.16%	2.05%	1.29%	0.63%	0.24%	0.14%
Annual Expenditure						
Department of sport	1,305,046,291	8,135,280,948	4,491,875,896	4,221,599,659	1,469,876,599	1,578,580,288
City Government	172,551,521,560	170,868,096,890	163,008,473,631	162,017,957,319	173,637,613,428	176,954,055,167
Percentage	0.76%	4.76%	2.76%	2.61%	0.85%	0.89%

In recent years, the department's annual revenue budget has accounted for 0.14%-0.18% of the city's total budget. The budget for annual expenditures accounts for 0.5%-0.6% of the city's total budget. Compared to previous years, the revenue budget and the expenditure budget saw considerable growth between 2015 and 2017 before a significant decline in 2018. The main reason for this is caused by the 2017 Taipei Universiade, for which the department arranged funding with the government. Upon the conclusion of the 2017 Taipei Universiade, relevant budgets were no longer arranged for 2018.

Chapter 3.

ACCESS TO FACILITIES AND SPORT ACTIVITIES

3.1 Explain how the sport associations or sport clubs work in your town, agreements and grants, and possibilities for non-members to use them

The operation of the sports associations in Taipei is dominated by individual associations and district sports clubs. The establishment of various civil organizations in this municipality shall be filed with the Department of Social Welfare, Taipei City Government. After the approval of their aims and tasks, the sponsors shall, in accordance with the procedures established, promote grassroots sports activities throughout various corners of Taipei City and handle all kinds of sports activities.

As of 2018, Taipei City has approved 377 sports associations. Among them, all 12 administrative districts under the jurisdiction of this municipality have established district sports clubs in accordance to law. These are the most basic sports groups in the city. There are more types of sports committee within each district. The purpose of these establishment is to promote sports. The general atmosphere invites harmonious interaction between neighbors and fosters good exercise habits to promote physical fitness and health. Even if they are not members of the sports associations, people can apply for new membership in accordance with the organization's articles of association.

Each year, various sports associations in the city and the Department of Sports, Taipei City Government co-organize or receive subsidies for sports activities, totaling more than 400 games. The type of activities include Asian Olympic Games, Sports for All Day, and grassroots events organized by sports clubs in various districts. Most of the event venues are in sports centers, schools at all levels, riverside parks, and other venues under the jurisdiction of the municipalities. Participants in the event are extended to the citizens of this city. Members of non-association organizations can also participate in various sports activities. The associations promote activities through various channels, such as websites, posters, Facebook fan groups. They even attract people through free registration. The sports venues under the jurisdiction of the 12 districts and this municipality may cooperate with related sports associations to organize sports-related activities.

3.2 Explain the procedures: the existence of agreements, sportcard for entrance at reduced rates, public transport to the sport facilities etc.

(1)Sports venue usage fee combined with transportation pass:

Currently, this department has invited venue operators to provide relevant promotional offers for the use of swimming pools, gymnasiums, and various types of sports instruction courses. Each of the district sports centers and the Taipei Tennis Center has completed the construction of EasyCard and credit card payment systems. With the gradual introduction of smart applications, the service quality and efficiency of sports centers will be improved. To increase convenience and reduce the number of people waiting in line to purchase tickets during peak hours, the public can also use EasyCard to enter various venues. In addition to special holiday marketing campaigns, free entry or preferential measures for specific demographics are also provided to encourage public participation.

(2) Use of sports facilities:

A. Discount programs for the city's 12 district sports centers:

Taipei 12th Sport Center Discount Program			
Discount Program	Facilities	Time	Applicable People
Weekdays Are Free	Swimming Pool	Whole Day	Child under 3yrs. old
	Gym, Swimming Pool	Whole Day	People with Disability (Including Companion)
		1. 8-10 am. 2. 2-4 pm.	Low-income Households, Aboriginal People over 55yrs. old, Citizens over 65yrs. Old
Special Days Free	Swimming Pool	Children's Day (Apr. 4)	Child under 12yrs. old
	Gym, Swimming Pool	Aboriginal Day (Aug. 1)	Aboriginal People
		National Sports Day (Sep. 9)	All People
		Double Ninth Festival (Lunar Calendar Sep. 9)	People over 65yrs. Old

B. Promotional offers self-administered sports venues:

Self-administered Sports Venues Promotional Offers					
No	Venue	Field	Promotional Offers	Time	Applicable People
1	Taipei Gymnasium	Badminton Court, Table-tennis Court	50% off	Whole Day	1. 6-12 yrs. Children 2. Student 3. Aboriginal People over 55 yrs. Old 4. People over 65 yrs. old
			Free		1. People with Disability (Including 1 Companion) 2. Children under 6 yrs. old or above 6yrs. old but height under 115 cm. (Grown-up Companion Needed)
				Before 8 am.	1. Aboriginal People over 55 yrs. Old 2. People over 65 yrs. old
				Aboriginal Day (Aug. 1)	Aboriginal People
			National Sports Day (Sep. 9)	All People	
2	Tian-Mu Sports Park	Tennis Court	50% off	Whole Day	1. 6-12 yrs. Children 2. Student 3. Aboriginal People over 55 yrs. Old 4. People over 65 yrs. old
			Free		1. People with Disability (Including 1 Companion) 2. Children under 6 yrs. old or above 6yrs. old but height under 115 cm. (Grown-up Companion Needed)
				Before 8 am.	1. Aboriginal People over 55 yrs. Old 2. People over 65 yrs. old
				Aboriginal Day (Aug. 1)	Aboriginal People
			National Sports Day (Sep. 9)	All People	
3	Jingmei Swimming Pool	15 NTD	6-8 am.	1. 6-12 yrs. Children 2. Student	
		25 NTD	From 8:30 am. To 9:30 pm.	3. Aboriginal People over 55 yrs. Old 4. People over 65 yrs. old	
4	Riverside Sports Park		Free	Whole Day	All People

Note: The above ticket fees can be paid by EasyCard.

(3) Promotion of activities:

The municipal government handles the organization of Senior Sports Day, National Disabled Games, and Active Aging Sports Movement, providing citizens with the freedom to register and participate for free. In addition, “Measures for Subsidizing Civil Sports Organizations in Taipei for Sports Activities” will be established to increase sports activities and provide more opportunities for public participation. More than 400 sports activities will be subsidized each year to promote the willingness of sports organizations to administer such activities. Preferential programs are also offered, providing event venues in the interest of public welfare.

CLUBS AND ASSOCIATIONS AND PARTICIPATION OF RESIDENTIAL SPORT CLUBS OR SPORT ORGANISATIONS IN THE LEAGUE

4.1 Provide a detailed list of associations and sport clubs that compete in top divisions, championships and national tournaments.

A total of 377 regional sports organizations have been legally established and approved by the Taipei City Government. They are often divided into "Affiliated Sports Association of the Taipei Municipal Athletics Federation" and "Non-affiliated Sports Association of the Taipei Municipal Athletics Federation". Among them, there are a total of 105 individual associations and 12 district sports clubs belonging to the "Affiliated Sports Association of the Taipei Municipal Athletics Federation"; There are 55 associations associated with Asian Olympic Games and 205 independent associations belonging to the "Non-affiliated Sports Association of the Taipei Municipal Athletics Federation".

For the Sports for All movement, this department collaborates with the National Association of Individual Sports. We will host the Taipei Marathon, water sports events, sports dance events, extreme sports events, and obstacle sports events on an annual basis. We collaborate with Chinese Taipei Road Running Association, T.I.S.D.D.A., Taiwan Dancesport Development Association, Chinese Taipei Dancesport Federation, Chinese Taipei Extreme Sports Association, and T.W.A.A.L.S.S.A.

Regional Associations of all national sports Slow Softball Association, Sports Dance Association, National Ballroom Dance Association, Powerlifting Association, Woodball Association, Croquet Association, Cheerleading Association, and Lele Baseball Association. They also include Taipei Children's Football Association, Taipei MMA Association, Taipei Water Ski Association, Taipei International Dance Association, Taipei San Jiao Du Dragon Boat Culture Development Association, Taipei Changqing Athletics Association, Taipei Table Tennis Association for the Disabled, and Taipei Wheelchair Tennis Promotion Association.

For competitive sports, we mainly cooperate with the National Association of Individual Sports. Categories include track and field, archery, football, baseball, tennis, basketball, fencing, judo, taekwondo, badminton, ice skating, and cycling. Each year, more than 10 international events are held in Taipei based on the cooperation of sports groups. Some of the events include World Junior Figure Skating Championships, Four Continents Figure Skating Championships, WTA Taiwan Open, Tour de Taiwan, Santaizi ATP Challenger, AYG Table Tennis, FIVB Volleyball World Grand Prix, Asian Men's Volleyball Championship, U-12 Baseball World Cup, Chinese Taipei Open, Taipei WTA Ladies Open, Asian Taekwondo Championships, Asian Judo Open, World Junior Taekwondo Championships, Asian Archery Championships, World University Roller Sports Championships, FIFA World Cup qualification - AFC, Asian Junior Athletics Championships, and World Fencing Championships.

Apart from organizing international competitions with individual sports associations in the country, this department also cooperates with other national and city-wide sports groups to administer other sports activities.

The sports associations and clubs located in Taipei City that handle individual sports championships or national events are detailed in Appendix II.

4.2 Provide detailed info about sport volunteers in the city: how are they organized, how they proceed, how they look for new volunteers, benefits of being volunteer.

Sports volunteers are the most powerful promoters of the government and civil sports organizations in advocating sports events. Apart from providing necessary manpower assistance, they act as walking information stations. They can introduce complete policy concepts into the lives of citizens and participate in community activities to assist the government in the successful implementation of various sports activities. The processing status is as follows:

- (1) The "Volunteer Service Staff of the Department of Sports Management Guidelines" was issued to manage the Volunteer Service Team of the Department of Sports, Taipei City Government. The volunteers are mainly responsible for tasks such as consultation at sports stadium and manpower support at sports events.
- (2) Providing education and training for volunteers, including basic training and professional training, with related courses in accordance with the manpower required by various departments or sports activities, as well as allocating work schedules. At present, phased tasks are the main focus in manpower planning.
- (3) The Volunteers Celebration Day will be held once every quarter. The "Volunteer Service Team of the Department of Sports Coordination Meeting" and the "Taipei City Sports Volunteer Networking Conference" will be held once every year. If necessary, ad hoc meetings will be announced.

Special regulations related to voluntary sports services are established and volunteer training programs are carried out to integrate social and school resources. In order to advocate regular participation, improve fitness performance, and promote sports-related activities, we encourage enthusiastic people from all walks of life, as well as teachers and students in schools, to support the promotion of the Sports for All movement and assist in the sports training of children, adolescents, young adults, senior citizens, women, as well as other members of the community.

Through the experience of recruiting volunteers from international competitions in other countries, we combine the cooperation of different industries in domestic private companies, striving to use sponsorships and professional businesses to initiate personnel training. Currently, large-scale international competitions (such as marathons and international games) held in Taipei City have recruited volunteers. The recruitment of volunteers fluent in foreign languages can provide assistance for reception in international competitions. For example, volunteers fluent in foreign languages is often recruited via the "TOEIC International Volunteer Website" (Website: <https://vol.toEIC.com.tw/>).

For the recruitment of volunteers for sports events, we take the Taipei Marathon, the most representative international sports event in the city, as an example. In the aspect of safety and rescue, the 2017 Taipei Marathon recruited 100 EMT-licensed volunteers as EMT marathon runners in order to engage local people in promoting the identity of this event and to increase public participation; In terms of supply services, there were 9 supply stations administered by non-governmental organizations and schools to provide various foods and drinks for runners.

SPORT INITIATIVES, EVENTS OR PROJECTS, WHICH ARE DIRECTLY CARRIED OUT OR PROMOTED BY THE CITY COUNCIL

5.1 Provide a list of sport events organized by the City.

Taipei City hosted the 2009 Summer Deaflympics. It was the first Summer Deaflympics held in Asia. The scale of the competition includes 15 individual sports and 5 team sports, totaling 20 competition categories. Nearly 3,000 players from 80 countries and regions participated. On September 5, 2009, after the opening ceremony of the 2009 Summer Deaflympics, Donald Ammons, chairman of the International Committee of Sports for the Deaf, said, "This is the best opening ceremony in the history of the Deaflympics."

Last year, the city held the "2017 Summer Universiade". A total of 145 countries and regions participated in the event. The total number of participating athletes was 7,639, and the number of team members was 3,758. At a press conference on August 30, 2017, Oleg Matysiny, President of International University Sports Federation (FISU), said, "Taipei 2017 Universiade has been very successful. It was one of the best events that FISU had seen." The Universiade set a record for the highest ticket sales in history, reaching 87%. This shows the public's enthusiasm and commitment to sports activities in Taipei City.

Every year, the city regularly hosts the Taipei AA Baseball Invitational Tournament, the Taipei City Cup Boxing Tournament, and the Taipei City Cup Taekwondo Invitational, inviting other cities for sports competitions and exchanges. In addition, the Taipei Marathon and Taipei City International Dragon Boat Championships are also regularly held. Nearly 10,000 players, team staff and spectators enthusiastically participates in these two activities.

To further enhance the maintenance and management of the sports facilities in the local government offices and reserve the resources for the city to become the world's sports capital, the first "Sports Facilities Maintenance Management Seminar" was held in 2018. The training targets business personnel responsible for the sports facilities in various agencies. A total of 50 students will be enrolled in the two-course curriculum for seven hours a day. The topics of these morning and afternoon classes range from sports facilities planning, basic theory of maintenance and management. The comprehensive training will explore the knowledge of sports facilities maintenance and management, with a view to transforming the day-to-day management capabilities of business personnel in various agencies to provide citizens with high-quality and friendly environments for sports activities.

Time	Large International and National Sport Events
2009/9/5-15	2009 Summer Deaflympics
2013/10/19-24	The National Games Taipei 2013
2017/8/19-30	2017 Taipei Summer Universiade
Time	Annually Sport Event
Jun.	Taipei Dragon Boat Festival

Jun.	Cross-Strait City Dragon Boat Culture Exchange Activity
Jun. to Aug.	Taipei City People Water Activity Experience Series
Aug. to Oct.	Taipei City Cup
Sep.	Strait Cup Basketball Invitation-Taipei tour
Dec.	Taipei Marathon

5.2 List the organization of agreements, conferences, seminars or other events in sport matters and in collaboration with entities of importance in sport matters concerning the most important topics related to sport management and antidoping actions.

(1) Sport management

Collaborated with TASSM to conduct an international seminar on the development of the sports industry:

- A. "International Conference on Management and Development of Sports Facilities and Sports Industry" was held in 2016. Australia's industry experts were invited to share the business model of sports venues for an aging population, South Korean scholars shared knowledge in the disposal and movement of fixed assets after major international events, and experts from China shared experiences of large-scale tennis center management. Outdoor stadium maintenance workshops were held at the Youth Park Baseball Field for a period of 2 days with a total of 151 participants.
- B. In 2017, Chinese experts were invited to share their experiences in international competitions and e-commerce applications. Experts from Singapore shared experiences in the management of sports parks, and Japanese scholars shared sports marketing strategies. Local officials shared practical experiences regarding consumer dispute resolution, health technology for senior citizens, and sports satellite accounts. The activities were held over a period of 2 days with a total of 167 participants.

(2) Anti-doping measures:

In order to safeguard the fairness of the sports competition, the contestants will compete under the equivalence of fairness to ensure the physical and mental health of athletes. The sports competition management department is obliged to educate and guide the athletes about the information and management methods of banned drugs. Each athlete is responsible for ensuring that no prohibited substance enters the individual's body.

To implement the management of sports banned drugs, the city conducted 14 sessions in the training and certification of Doping Control Officers between 2016 and 2017, with the assistance of the Chinese Taipei Anti-Doping Agency. A total of 168 Doping Control Officers, 328 Chaperones, and 21 Blood Collection Officials were trained.

The Chinese Taipei Olympic Committee has signed up with the World Anti-Doping Agency (WADA) as the National Anti-Doping Organization (NADO). It is the only qualified organization in the country capable in the administration of drug testing for banned substances and the management of test results; this municipality entrusted the Chinese Taipei Olympic Committee in the year of 2016/17 to apply for the training and certification of Doping Control Officers in accordance with the contents of education and training courses in the WADA announcement. We assist in inviting foreign drug control experts to conduct classes on banned substances. The relevant training courses are listed below.

List of Sport Anti-Doping Activities in Taipei City					
No.	Activity Name	Date	Organizer	Session	Participants
1	National DCO Seminar	105/4/1-106/7/31	Chinese Taipei Olympic Committee	4	168
2	International DCO Seminar	105/4/1-106/7/31	1. Chinese Taipei Olympic Committee 2. Canadian Centre for Ethics in Sport (CCES)	2	50

2. International DCO Seminar

3. International BCO (Blood Collection Officer, BCO) Seminar

4. National Chaperone Seminar

5.3 Provide a list of international, national and local sports events which took place in the City or its surroundings within the last three years.(2015-2017)

The number of international, national, citywide, and regional sports events held in this city over the past three years, for which the department provided administrative assistance or financial assistance, has been reported to be nearly 500 each year. There are still a lot of sports events that are held without the official cooperation with the city. In an effort to omit trivial information, only the names and durations of major international competitions (events) will be listed in detail.

(1) The major international sports events organized by the city in the past three years are as follows:

A.2015

No	Date	Event
1	2/28	Asian Dance Tour Taipei Open
2	3/14	2018 WDC World Grand Prix
3	3/14-19	IIHF Challenge Cup of Asia
4	3/20-24	2016 AFC Women's Olympic Qualifying Tournament
5	3/22	Tour de Taiwan 1st stage Taipei City
6	4/6-12	Amway eSpring International Woman 9-ball Championship
7	4/11-17	Asian Junior ,Cadet & Para Taekwondo Championships
8	4/27-5/3	SANTAIZI Challenger
9	5/15-16	Taiwan Athletics Open
10	7/14-19	YONEX OPEN CHINESE TAIPEI
11	7/25-26	Asian Judo Open M&W Taipei
12	8/11-16	Asian Archery Grand Pix
13	8/13-21	Asian Men's Club Volleyball Championship
14	9/23-27	Chinese Taipei Table Tennis Junior & Cadet Open
15	11/16-22	OEC Taipei WTA Challenger

B.2016

No	Date	Event
1	2/16-21	ISU Four Continents Figure Skating Championships
2	2/28	Asian Dance Tour Taipei Open
3	3/13	Tour de Taiwan 1st stage Taipei City
4	4/7	WDC World Cup Open to the world
5	4/9-12	Amway eSpring International Woman 9-ball Championship
6	4/27-5/3	SANTAIZI Challenger
7	6/17-19	East Asian (Youth) Karate Championship
8	6/28-7/3	YONEX OPEN CHINESE TAIPEI
9	7/9-17	Asian Boys' U19 Volleyball Championship

10	8/18-21	Formosa Cup ACBS Asian Pool Championship
11	8/24-28	Chinese Taipei Junior & Cadet Open
12	8/25-27	APGC Junior Championship Mitsubishi Corporation Cup
13	9/1-5	9th Asian Wushu Championship 2016
14	9/3-4	Asian Judo Open M&W Taipei
15	9/6-11	Asian University Women's Basketball Championship
16	9/8-13	Asian Archery Grand Pix
17	10/21-26	World University Woodball Championship 2016
18	11/12-19	OEC Taipei WTA 125K Series
19	12/3-6	Asian International Roller Sports Open
20	12/17-19	FIE Epée Satellite World Cup

C.2017

No	Date	Event
1	1/28-2/5	WTA TAIWAN OPEN
2	2/24-26	2017 Summer Universiade Baseball Exhibition Games
3	2/28	2017 Asian Dance Tour Taipei Open Golden Dance Awards
4	3/2-5	Amway eSpring International Woman 9-ball Championship
5	3/15-19	World Junior Figure Skating Championships
6	3/25	10th WDC World Grand Prix
7	3/26-30	Tour de Taiwan 1st stage Taipei City
8	4/17-23	SANTAIZI Challenger
9	4/27-30	2017 Summer Universiade Water-polo Test Event
10	4/30	Asian Athletics Grand Prix
11	6/1-4	2017 Summer Universiade Taekwondo Test Event
12	6/11-25	2017 Formosa Cup ITF Men & Women's Circuit
13	6/27-7/2	YONEX OPEN CHINESE TAIPEI
14	6/29-7/2	2017 Summer Universiade Swimming Test Event
15	7/3-10	2017 Summer Universiade Football Test Event
16	7/4-9	Asia Cup- World Ranking Toournament
17	7/7-8	Taipei City Cup Diving International Competition
18	7/8-9	Asian Judo Open M&W Taipei
19	7/15-23	2017 William Jones Cup
20	8/1-3	2017 Summer Universiade Rhythmic Gymnastics Test Event
21	8/7-9	2017 Summer Universiade Gymnastics Test Event
22	8/19-30	2017 Taipei 29th Summer Universiade
23	10/10	2019 AFC Asian Cup qualification
24	11/12-19	OEC Open Series

(2) Domestic and regional sports activities organized by the city in the past three years are as follows:

In 2015, there were 16 national sports competitions and 37 city-wide sports competitions. In 2016, there were 15 national sports competitions and 36 city-wide sports competitions. In 2017, there were 26 national sports competitions and 32 city-wide sports competitions.

In 2015, there were 36 national sports events and 32 city-wide sports events. In 2016, there were 27 national sports events and 41 city-wide sports events. In 2017, there were 31 national sports events and 47 city-wide sports events.

In 2015, a total of 331 regional sports events were held. Among them, district sports clubs handled 193 events; In 2016, a total of 330 regional sports events were held. Among them, district sports clubs handled 199 events; In 2017, a total of 345 events were held. Among them, district sports clubs handled 219 events. It is learned from the above that the district sports clubs play a very important role in the city's regional sports activities.

5.4 Provide a list of international, national and local sporting events that are planned in the City until the year of candidacy becomes effective.

(1) International sports activities the city plans to apply for in 2018:

No	Date	Event
1	1/24-27	World Junior Figure Skating Championships
2	1/27-2/4	WTA TAIWAN OPEN
3	2/28	2017 Asian Dance Tour Taipei Open Golden Dance Awards
4	3/4-11	Amway eSpring International Woman 9-ball Championship
5	3/11	Tour de Taiwan 1st stage Taipei City
6	4/7	11th WDC World Grand Prix
7	4/7-15	SANTAIZI Challenger
8	4/25、5/2	2019 AFC Asian Cup qualification
9	5/25-26	Taiwan Athletics Open
10	7 月	Asia Judo Open
11	7/9-12	Asia Cup- World Ranking Tournament
12	8/6-16	Asia Cup Men's Volleyball
13	8/22-26	Chinese Taipei Junior & Cadet Open
14	10/1-7	2018 World University Roller Sport Championship
15	10/2-7	YONEX OPEN CHINESE TAIPEI
16	10/16-21	World Taekwondo Poomsae Championships
17	11/11-18	OEC Taipei Open Series

(2) Domestic and regional sports activities the city plans to apply for in 2018:

As of April 2018, a total of 16 nationwide competitive sports events were held, a total of 16 citywide competitive sports events were held; an estimated total of 100 regional sports events were held, including a total of 74 events organized by district sports clubs.

5.5 Analyze and explain the return of the investment from the use of citizen installations (collections, sales advertising spaces, other revenues, etc.).

(1) Operating income for event space rental:

The city's 12 district sports centers and 14 sports venues or their ancillary facilities, a total of 26 sports venues, adopts the ROT mode in accordance with the "Public Participation Construction Act"

(2) City hall self-administered (non-outsourced) stadium usage fee and parking lot commission operating income:

Based on the regulations and principles of user fees, the sports venues operated by the Taipei City Government, except for the riverside sports venues, have all collected venue rental fees and ticket sales. In 2017, the revenue reached NT\$11.22 million. In addition, operation of the Taipei Gymnasium parking lot and the Taipei Municipal Stadium underground parking have been entrusted to private sectors.. In 2017, the royalty income received by the municipal government reached NT\$30.23 million.

(3) Rental income from affiliated commercial space, vending machines and base stations:

The subsidiary commercial space in the Taipei Municipal Stadium is leased for use. The space inside the stadium is also used for vending machines to collect rental fees. Some of the venue's top floors are also leased for telecommunication operators to use as base stations. In 2017, the revenue for affiliated commercial space rental is NT\$2.38 million, the revenue for vending machine rental is NT\$90,000, the revenue for base station rental is NT\$1.68 million.

MEASURES TO PROMOTE HEALTH AND INTEGRATION THROUGH SPORTS IN ALL SOCIAL CLASSES

6.1 Are there special health care programs, related to sports, for everybody?

The city's various sports centers entrusted to the management contract must provide public welfare services for swimming pools and gymnasiums from 8 to 10 am and from 2 pm to 4 pm (services in the afternoon period are cancelled in the case of cold weather, summer vacation, and holidays); In addition to public welfare programs and public welfare classes, 3% of the annual revenue should be provided each year for public welfare activities such as municipal marketing, promotion for neighborhood relations, school education, and charitable activities for Sports for All movement.

In response to the aging trend in Taiwan, the "Active Aging Sports Movement" project began in 2016 in order to provide quality opportunities for seniors to develop a healthy social circle. From the senior sports tour team, senior sports demonstration classroom, community training, community involvement, marketing promotion, etc., the integration of existing resources seeks to provide community-based learning environments for health and sports-related knowledge. This project continues to expand the population of elderly participants as it builds upon the vision of the "Active Aging Senior Sports Community of Taipei".

6.2 Are there special opportunities for the different age groups to practice sport? Who offers these opportunities?

To promote sports in early childhood and popularize grassroots football population, the "Taipei Preschooler Football Games" began in 2010 to cultivate players at an early age and increase children's interest in football. The competition process develops children's physical fitness and cultivates team building concepts.

As the population structure gradually shifts towards an aging society, the promotion of health and fitness to the elderly has become an important issue. In 2011, this department began hosting "Taipei Senior Sports Day" in an effort to encourage and (drive) the regular exercise habits among senior citizens through the form of sports games. It has now entered its fifth year. "Taipei Senior Sports Day" is organized with the help of private groups and top-tier manufacturers. The competition includes group carnival games, cross-generation carnival games, track and field events, and croquet experience events. The concept of fall prevention is translated into numerous exercises. "Taipei Senior Sports Day" initiates the development of regular exercise habits and the (vision of) "Sports at Anytime, Anywhere". Only with a healthy lifestyle will the families of this society enjoy greater happiness. Let Taiwan become "Sports-friendly city for the elderly"

The 2017 "Taipei Senior Sports Day" was held on October 21st at the Taipei Gymnasium and the Taipei Municipal Stadium. In addition to carnival games, cross-generation contests, track and field events, we specifically designed the croquet experience events for the elderly to display their enthusiasm and vitality as they enjoy the carnival!

In 2017, a total of 948 elderly players signed up. There were 75 players over the age of 80. Among them, Zhongshan District's Zheng Hong-Mo was the oldest male player, participating in the croquet experience events. Datong District's Chen Bao-yu was the oldest female player, participating in the cross-generation carnival competitions. The vigorous spirit of these senior participants is admirable!

The event spokesperson - 80,-year-old Asian Ironman Wu Amin led the players into the arena. At the closing ceremony, retired National Taiwan Normal University professor Zhuang Mei-ling used elastic band to teach all the players, city officials, and VIPs to perform aerobics. It was a moving display of active aging and healthy lifestyle.

6.3 Are there sport courses for those with a specific social background or disability?

In response to the increasing working hours of laborers and the (large) percentage of time employees spend in the workplace and at home, the city organized the "Employee Recreation-Sports Tour Team Project", combining sports centers and schools to promote sports in the workplace. In addition, applications are also provided for this city's enterprises, agencies, or corporations. We hope to gradually increase the number of employees participating in sports and cultivate regular exercise habits by improving the overall quality of sports development through sports instruction courses, physical fitness classrooms, physical fitness testing, and sports consultation.

In addition, we encourage people with physical and mental disabilities to actively participate in sports events in order to improve the health of citizens with disabilities. We hope this will activate their confidence as well as enhance the well-being of their mind and body. Taipei City regularly conducts leisure-based sports events for citizens with physical and mental disabilities in odd-numbered years and competition-based sports events for citizens with physical and mental disabilities in even-numbered years. The events in odd-numbered years

are organized by teams from the city's 12 administrative districts. The city's physical and mental disabled friends are invited to participate. We hope they can enjoy the beauty of sports and enrich their physical and mental health. The family members and companions who are usually serving as caregivers can enjoy the activities together.

6.4 Are there initiatives to promote integration thorough sports?

(1) Senior Sports

In 2016, the city launched the "Active Aging Sports Tour Team" program. A sports fitness station is installed at existing public channels (sports centers, senior centers, health centers, elder resource centers) in each of the city's 12 administrative districts to provide free and professional sports guidance. Application is open to various neighborhoods, associations and private organizations. In total, there are 64 locations in the city. In 2016, they served 9,000 people and received enthusiastic responses from many elders.

The team of professional fitness instructors specially invited by the steering group will innovate and develop exclusive athletic courses for senior citizens. With innovative game-style interactive teaching methods, the elders can be entertained while exercising. At the same time, they also plan promotion methods that allow senior citizens to exercise using the least labor-intensive practices without traveling long distances. Some of these practices include demonstration classrooms for senior citizens, neighborhood-based sports stations, and complete fitness videos on social media (Facebook, YouTube). By the end of August 2017, the Taipei City Sports Tour Team has successfully conducted 1006 senior-level sports coaching sessions at 140 locations, and interacted with 25,695 senior citizens.

(2) Women's participation in sports

Taiwan is a leading country in Asia in terms of women's rights. MasterCard's 2016 "Female Entrepreneurial Index" also shows that Taiwanese women's performance in "higher education" ranks third in the Asia Pacific region (88.0 points); In particular, the performance of the "Female Political Participation" was dazzling. The percentage of female politicians in the parliament (25.3%) ranks fourth in the Asia Pacific region, and the current head of state in Taiwan is also female.

The rise of Taiwanese women in positions of power is also reflected in the participation of women's sports. From 2011 to 2017, Nike's Taiwan branch and Chinese Taipei Road Running Association have held Woman Run Taipei for six consecutive years. The Department of Sports, Taipei City Government served as a co-organizer. This event started with the 6k run and the 10k run, and introduced the first women-only half marathon in 2014. Currently, the event has a 10k run and a half marathon that are IAAF-certified.

The 2018 Woman Run Taipei took place on April 15th. It was sponsored by New Balance and Taishin International Bank. More than 18,000 women participated in the event (For details, please see: <https://www.newbalance.com.tw/event/2018/women-run-taipei/pc/> or <http://www.womenruntpe.com/eng.php>). Well-known female celebrities, athletes, and sport anchors also joined the competition and held talks. The event started off before the Taipei City Government. The organizer encouraged women to adhere to their own beliefs and follow their own paths in the spirit of "Follow No One". This event will continue to be held in the coming years and create a unique celebration of female beauty.

(3) Online Application and Payment for Venue Rental

An updated version of the Taipei Venue Booking System will be launched in 2018. New features such as "Real-time Booking, Tour Guides, Site Facilities and Equipment Descriptions, Online Payment" will be added. The system can also be used on mobile devices such as tablets and mobile phones. Payment is also more convenient as online payment methods will be made available. Online credit card transaction, WebATM or ATM transfer can be selected for payment. Currently, the feasibility of other mobile payment methods (such as mobile wallet, Android Pay, Apple Pay, Line Pay, JKO Pay) is being evaluated. The new updates expect to achieve the goal is facilitating convenient use for the general public.

6.5 Are there educational opportunities for training of coaches and instructors?

(1) Social Physical culture

To sustain the independent operation of fitness stations for the elderly, talent cultivation and neighborhood counseling through course studies, professional training, volunteer coaching, or other execution methods are designed to assist the community in nurturing instructors or establishing work teams. It is expected that at least 10 instructors and 30 volunteers will be involved each year to form the basis for sustainable development for the senior sports community.

To promote the Sports for All movement. This department annually subsidizes individual associations to host coaching and refereeing workshops. Some of the sports include bodybuilding, paddling, croquet, jujutsu, football for toddlers, and slow-pitch softball).

In terms of competitive sports, the municipal government annually subsidizes individual associations to host coaching and refereeing seminars. The purpose is to enable interested people and players to have the opportunity to learn relevant knowledge and become qualified. Coaches and referees may also absorb new knowledge through class. In 2017, C-level coaching and refereeing seminars was held for track and field, baseball, rugby, volleyball, wrestling, and martial arts; in 2018, C-level coaching and refereeing seminars are expected to be held for track and field, baseball, basketball, and rugby.

In 2017, two coaching workshops were organized to provide relevant training. One of which was a sports protection workshop that took place over a period of 4 days. It was taught by specialists and physiotherapists, covering topics that include the introduction of sports protection, evaluation of upper limb and lower limb sports injuries, icing and taping practices for ankle, upper limb, and lower limb sports injuries, thermal damage, as well as basic introduction to transdermal patch. The second workshop is a professional fitness training workshop that was held over a period of 2 days. It was taught by professional experts from Czech Republic. Topics include the application of Sanctband in clinical rehabilitation, basic science and demonstration on the application of tension band for muscle strength training, fall prevention (basic theory, treatment, and demonstration), clinical use of Swiss ball, tension ring, exercise ball, and balance cushion (discussion, introduction, and demonstration), as well as guidelines and related strategies on the treatment of different diseases.

(2) Physical education:

Every year, this municipality entrusts the city's Teacher Training Center to conduct coaching seminars in order to enrich full-time coaches in schools. There are two main objectives: 1. To implement Article 18 of "Administrative Measures for the Appointment of Full-time Sports Coaches at All Levels of Schools" that requires full-time coaches to participate in 18 hours of related courses. 2. Enhance the practical knowledge regarding professional topics and theories of newly appointed full-time coaches in schools, establishing technical expertise and building the foundation of outstanding professional sports coaching.

6.6 How does the city promote Fair Play?

From an educational point of view, fair competition refers to the competitive activities that are conducted under the objective conditions of the same time, space, and venue, for which the participants obey the same rules and adopt an upright and positive spirit of sportsmanship. The core value of fair competition must be cultivated from a young age, implemented in the physical education curriculum at all levels of school, and promoted through inter-school sports exchange events. From the process of competition, students should be taught to observe rules, respect judges, respect all participants, and promote the concept of fair competition.

Taipei City Government sponsors or assists (private sports organizations) in hosting professional coaching and refereeing workshops in order to enhance the quality of referees and the concept of fair play among players and coaches. The contents of the lectures will be put into related courses for topics such as fair play and sports ethics to promote the concept of fairness. When a non-governmental sports organization organizes an event to apply for a government subsidy, the municipal government will also review its competition rules in detail to ensure fairness.

The Department of Sports, Taipei City Government and the Department of Education, Taipei City Government will advocate the spirit of fair play when hosting various events, or organizing various teams for the National Games, National High School Athletics Games, Sports for All Day, National Disabled Games, and National Indigenous Games.

6.7 Specify the additional measures that the municipality has proposed to promote health and integration through sport, to the year in which it the candidature becomes effective and during the candidature.

This municipality cooperates with the sports department of the Department of Education, Taipei City Government's "iSports Taiwan" program and will implement the community fitness promotion program in 2018. Through a permanent testing station that combines related courses with testing, knowledge transfer, and active involvement in senior citizens' physical fitness, etc., the general public can improve their awareness and attention to physical fitness, thereby generating motivations to exercise, developing regular exercise habits, and tracking themselves through regular physical fitness tests. Actual effects of sports and fitness will be strengthened as a result.

In addition, management contract agreement signed by each sports center requires the entrusted operating companies to provide swimming pools and gymnasiums for public welfare services from 8:00 to 10:00 and from 2 to 4 in the afternoon (services in the afternoon period are cancelled in the case of cold weather, summer vacation, and holidays); In addition to public welfare programs and public welfare classes, 3% of the annual revenue should be provided each year for public welfare activities such as municipal marketing, promotion for neighborhood relations, school education, and charitable activities for all citizens. As of March 2017, the sports centers in each district of the city have completed a total of 1,691 seminars as part of the public welfare services, and there have been an estimated total of 47,074 participants.

2017 臺北世界大學運動會
29TH SUMMER UNIVERSIADE

SPORTSMANSHIP RATE OF THE POPULATION

7.1 Total number of card-carrying members in the associations and clubs of Sport Federation, if possible, classification by age groups.

Due to cultural differences, the promotion of grassroots sports in Taiwan is based on schools, rather than the approach in continental Europe through regional sports clubs. In schools, physical education classes, sports classes, sports associations, school teams, and grassroots sports training stations are used to promote sports. The promotion of competitive sports in this municipality is mainly conducted in the from of grassroots athlete training stations (hereinafter referred to as base stations). In 2018, a total of 351 base stations were set up in 143 schools and 15 individual associations in Taipei City, with a total of 875 coaches and 8398 athletes. The relevant statistics of the base stations in this city in 2018 are as follows:

Schools At all Levels	Content	Quantity			
	Sports Type	37			
	No. of Stations	351			
	No. of Stations/ Athletes	Athletics(1)	45 stations/ 1100 Athletes	Taekwondo(18)	17 Stations / 274 Athletes

In addition, there is a total number of 377 sports associations in Taipei City. For details, please refer to Appendix III.

7.2 How many people from your city/town are actively involved in sport?
Please, explain the methodology used to obtain the data provided.

In 2017, the Taipei City Government adopted a sample survey method to conduct quantitative statistical studies and conducted telephone interviews for citizens aged 13 and above in the entire area of the city in order to review the promotion of sports policies and the general public's participation in sports activities. A total of 4,923 valid surveys were completed among the 12 districts. The results showed that 87.7% of the citizens regularly exercise.

In addition, according to the Department of Sports, Taipei City Government's report “Sports Trend Survey of Taipei City 2017”, the city's active participants in sports activities is 35.8%; according to the Department of Education, Taipei City Government's report “Sports Survey of 2017”, the percentage is 34.6% (Active participation in sports activities in this report is defined as the exercise habit of 3 times a week, 30 minutes each time, during which the person will experience a heart rate of 130 bpm and feel panting and sweating. This is the current definition of active participation of regular exercise from the Sports Administration of the Ministry of Education of the Republic of China).

7.3 Explain the additional measures proposed by the municipality to increase sport among all segments of the population. Provide approximate figures of expected data to be achieved during the period that elapses until the candidature and during the candidature.

The Department of Sports, Taipei City Government will continue to promote the participation of competitive sports for all citizens and the management of sports venues, with a view to continuously improve the population of active participants in sports. According to the 2017 survey report on conducted by the Sports Administration of the Ministry of Education of the Republic of China, the city's active participants in sports have gradually increased from 28.9% in 2009 to 34.6 in 2017.

The promotion of Sports for All movement is divided into two major sections. One is sports activities for general public participation, including running, walking, cycling, sports dance, watersports, combat sports, extreme sports, etc. Major events include Taipei Marathon, Taipei Dragon Boat Festival, Watersports Experience Camp, International Dance Open, International Extreme Sports Championships & Events, etc.; the other section provides activities suitable for special ethnic groups or age groups, and promotes the development of regular exercise habits. Some of the activities include, corporate sports leagues, sports awareness activities for women and children, football leagues for toddlers, sports games for elders, leisure games for the physically and mentally disabled, and other related activities.

In order to promote the Sports Administration of Ministry of Education of the Republic of China's “iSports Taiwan” policy, we implement campaign-related promotions and activities to solidify the cultural roots of local sports, broaden sports knowledge, foster sports-related initiatives, and advocate sports culture in the city. Among them, the 2017 Taipei Marathon won the International Marketing Award. It will work toward international certification and become and internationally renowned city for marathons.

The promotion of competitive sports is mainly divided into two parts. One is to organize competitive sports events. The other is to strengthen grassroots sports training. Since 2013, Taipei City has organized 10 to 15 large-scale international individual sports events each year, attracting more than 200,000 citizens to spectate. These events not only foster enthusiasts and fans of all kinds of sports, they also develop the habit of paying to watch sports games among citizens.

In the training of grassroots athletes, taking 2018 as an example, the Taipei City Government has established 15 individual associations throughout 143 schools in the city (including elementary school, middle school, high school, and university). A total of 37 sports are offered at 351 training stations, assisting more than

8,300 student athletes. The municipal government has set up these training stations since 2008. Each year, it provides basic subsidy for each station, subsidies for facilities and equipment, subsidies for environmental improvement projects, subsidy for foreign coaches, grants for overseas training and international competitions, and special programs for elite student athletes, affording a system that allows the players to comfortably train.

Each year, the city organizes training for the Taipei City teams in Shanghai and Shandong provinces. Since 2013, the city has launched the “Sports Training and Science Center Project” and the “Sports Injury Protection Support Training Program” in an effort to provide players and coaches with the latest scientific knowledge and training methods. The two programs employ sports science to assist in sports training, and measurable results were shown in 2017. 22 Taiwanese players won a total of 20 medals in the 2017 Summer Universiade, including 9 gold medals, 6 silver medals, and 5 bronze medals, accounting for 21.3% of the country's total number of 94 medals. This was our country's best performance since joining the Universiade, and we won third place in the total number of medals.

We provide citizens with safe and clean sports venues through the outsourcing of management to professional private organizations and the renovation of venues by entrusted operators. In 2018, the various outsourced sports venues under the jurisdiction of this department will be able to reach 11 million in attendance.

Regarding the operation and management of outsourced sports venues, it was clarified in the management contract agreement that the entrusted operating companies are required to provide public welfare period (8-10 am., 2-4 pm. Except for holidays, winter and summer vacation.) for people to use gym and swimming pool. And the commissioned operator should hold free public health lessons, speeches and seminars. They should also allocate 3% annual profit to demonstrate policy marketing, neighborhood-friendly activities, school education and sports for all campaign or related public benefit activities.

7.4 How does your city support voluntary participation in sport?

In the recruitment of volunteers for sports activities, the number of volunteers has grown year by year. Taking the Taipei Marathon as an example, citizens, non-governmental organizations, and schools have been invited to volunteer in an effort to increase public recognition and support. An estimated number of 300 volunteers in 2015 has increased to more than 600 in 2017. In addition, volunteers from the Department of Sports, Taipei City Government, as well as the city's residents and community members have responded enthusiastically and served as cheerleaders to increase social participation and diversity of activities.

To promote the participation of volunteers for venue services, the sports centers allocate 3% of the annual revenue to public welfare activities such as municipal marketing, neighborhood relations, school education, and related charitable activities to encourage citizens' involvement.

A sports volunteer platform will be established to increase the overall participation and management of volunteers through an Internet database. We will also collaborate with the Taipei Volunteer Employment Service Center's website to ensure long-term support and motivate volunteers to participate in sports events.

COMMUNICATION PROJECT TO PROMOTE THE APPLICATION

8.1 Explain the communication plan, image, file and identity of the project in the territory.

(1) Media:

- A. The municipal government issued a press release on January 31, 2018 when the mayor submitted a letter of intent to bid for this city in Brussels, Belgium.
- B. A press conference will be held when ACES Europe visits Taiwan during September 2018 and when the winners are announced in November 2018. A total of at least two press conferences are expected to be held.

(2) Promotion through government publicity pipeline:

- A. Information on the "World Capital of Sports 2019" will be shared through the official Facebook account of the Taipei City Government and the Mayor of Taipei.
- B. Information on the "World Capital of Sports 2019" will be shared on the website of sports centers in the city's 12 districts and on the LED screens and marquees at sports venues.

(3) Main Visuals:

The main logo will be entrusted to a design company. Various sports organizations in Taipei City will help display the main visuals and the words “Taipei, World Capital of Sport Candidate for 2019” in their event programs and on their official websites.

8.2 Explain how the organization uses ICT System (Information Communication Technologies) to promote the candidature.

- (1) Promotion will be shared through the official website, line account, and official Facebook account of the Taipei City Government and Sports Administration of the Ministry of Education of the Republic of China.
- (2) Information will be shared on the website of sports centers in the city's 12 districts and on the LED screens and marquees at sports venues.
- (3) Promotional photos will be shared in a photo album on the English and Chinese website of this department.
- (4) Promotional activities will be announced on the marquees in every Taipei MRT stations and broadcasted on various radio stations.

Chapter 9.

RELATIONS BETWEEN THE CITY COUNCIL AND SPORTS OR POLITICAL INSTITUTIONS AT LOCAL, REGIONAL AND NATIONAL LEVEL

9.1 Provide details about the agreements, relations between the City and the local, regional and national sports organizations.

To promote national and competitive sports, the Department of Sports, Taipei City Government collaborates with national sports organizations, as well as sports organizations and schools of this municipality, to organize international, national, and citywide competitions. We also organize training for citywide sports events and competitions as we continue to promote sports-related courses to our citizens.

The Taipei City Government shares cooperative and supportive partnerships with national, municipal, and regional sports organizations. Through sports events hosted by various levels of sports organizations, the city government provides related financial assistance and administrative assistance to promote and enhance the city's competitive strength. The city government has also utilized "Measures for Subsidizing Civil Sports Organizations in Taipei for Sports Activities" as a mechanism for cooperation and regulation with non-governmental sports organizations.

Activities and competitions will be handled according to various scales, levels of involvement, and funding. The municipal government may act as a co-sponsor, co-organizer, or instructing unit. It may adopt a plan for entrusting private organizations to handle private transactions, sign co-sponsoring contracts, or host events according to the government procurement law.

The use of venues is an important factor in the handling of events and events. As the capital city of Taipei, the city is narrow, dense, and compact, and most of the sports stadiums built are multi-purpose gymnasiums. In addition to various sports activities, they can also be used for exhibitions, musical performance, and performing arts events. Due to the number of events and activities in Taipei City, limited timetables, and other considerations for promoting sports and cultural activities, the city government has specially formulated the "Taipei City Government Public Welfare Schedule Review Committee Guidelines" to process the reviewing of rental schedule for the Taipei Arena and the Taipei Heping Basketball Gymnasium. Experts and scholars from the fields of sports, education, performing arts, arts administration, or cultural administration are appointed committee members. The principle of deliberation is to adopt a fair, just, and open manner in the promotion of public welfare, as well as allocate suitable time periods to various groups that need to enter large venues in order to achieve the purpose of promoting sports and cultural activities and eliminate disputes.

In the coordination of venue use for sports venues under the jurisdiction of the Department of Sports, Taipei City Government, a reservation-based model was established to negotiate site borrowing with sports organizations, schools, and various non-governmental organizations. The mechanism is described as follows:

(1) The priorities for the borrowing of the sports venues under the jurisdiction of this department are as follows:

- A. Formal international sports events.
- B. National sports activities.
- C. Citywide activities.
- D. Activities handled by this department.
- E. Nationwide or citywide large-scale activities hosted by all levels of government agencies (schools).

(2) This department usually issues a document in mid-July each year to inform agencies and sports organizations to complete and return the application form.

(3) After the completion of the internal assembly work, the announcement of the venue coordination meeting for next year will be issued to various agencies and sports organizations in early October.

(4) This department holds the venue coordination meeting in mid-October to coordinate the communication for conflicting schedules. The result of the venue coordination meeting is recorded in the rental system and announced.

9.2 Explain how the candidature promotes agreements with local, regional or national sporting goods industry actors, sports federations or other entities for the promotion of sport.

If Taipei City is selected as the capital of the world's sports, it will continue to strengthen the cooperative relationship between the city's Department of Sports and national sports organizations, as well as the city's sports organizations and affiliated institution. In doing so, it aims to establish relevant collaborative agreements for the organization of sports events and activities, training for players and coaches, participation in international competitions, and overseas training programs.

In promoting the development of sports venues, the sports centers in each district under the jurisdiction of this municipality will introduce private organizations for funding. We will continue to outsource the operation of sports venues and sign commissioned management contracts in accordance with laws and regulations. Each of the trustees will have to rely on the characteristics of administrative districts, operating costs, and management conditions to determine suitable business strategies. The operating companies will work independently with relevant industries and sports groups to facilitate the development of venues.

In addition to a substantive collaborative agreement with relevant organizations, the Department of Sports, Taipei City Government is expected to announce Taipei City's candidacy for the World Capital of Sport 2019 during the "Taipei Civil Sports Group Business Seminar" held in both the first and second half of 2018. Private organizations subsidized by this department are encouraged to promote the image of Taipei as a "World Capital of Sport", promoting the honor and recognition from the city's sports organizations and citizens as a "World Capital of Sport 2019"

9.3 Quantify and detail the investments in local sport related economy and research and innovation. Provide details of the events and activities on this field realized in partnership and co-operation with sports organizations and institutions on a National and European level.

(1) Research and grants:

The city has spent a total of NT\$6.55 million on sports research funding from 2013 to 2017. Research projects include sports demographic surveys, demand for senior sports facilities, blueprints on sports development policies, and other sports promotion.

As part of subsidizing sports organizations to handle sports activities, this Council has subsidized more than 400 activities each year, and annually provided NT\$29.70 million in subsidies for civil sports activities.

(2) Innovation:

A. Regulations on running events

The city's running activities began to take off in 2012, and the number of events has risen rapidly through the years. In order to control the quality of running events and reduce impacts on traffic, the city's Department of Sports announced "Taipei City Road Run Trial Execution Committee" in 2014. The plan was launched in 2015. The program is divided into four types of routes based on the scale and characteristics of the running activities: Taipei Boulevard Route, Artistic Mountain and Water Route, Riverside Family Recreation Park Route, Inter-regional Exchange Route.

B. Preparation of Taipei Sport Satellite Accounts Report:

According to the United Nation's System of National Accounts, 2008 (2008 SNA), the Taipei Sports Satellite Accounts were drafted to calculate the GDP of the city's sports industry. In 2014, it was about NT\$42.2 billion. In 2015, it was about NT\$43 billion. An input-output model was established to the economic benefits and output value of the city's sports events, in order to analyze the direct and indirect effects of sports expenditures, and serve as an indicator for the analysis of economic information related to major sports events in the city.

C. Integration of Sports Centers

An integrated platform and venue history database was established to coordinate the resources of sports centers in each district and strengthen exchanges among districts in order to achieve cumulative benefits.

D. Sports Science and Sports Protection

(a) Competitive Sports Training and Science Center Project

In order to provide a systematic, scientific, long-term and periodical training program for the city's athletes, reduce sports injuries, and extend sports participation, this department has set up the "Taipei Sports Training and Science Center" program to give players the most complete training. Training aids and care are divided into 8 divisions, including athletic ability testing group, sports physiology testing group, sports technical analysis group, sports injury prevention advocacy group, sports psychological performance group, banned substances advocacy group, and sports nutrition consultation group.

Competitive Sports Training and Science Center
List of Group Services Times
In Recent 3yrs.

Group Type / year	2015	2016	2017
Sports Ability Test	1,402	1,267	1,601
Sports Protection	3,152	2,763	2,132

Sports Psychology Consultant	575	902	908
Anti-Doping and Abuse Propaganda	553	453	532
Sports Physiology and Motion analysis	323	415	422
Coach on-the-job training And workshop	205	191	344
Total	10,256	10,089	9,987

(b) Sports Injury Protection Training Program

Taipei City set a precedent for all counties and cities in the country in the area of sports injury protection. In 2016, 20 sports injury protection stations were established, and the original sports injury protection center in the Taipei Municipal Stadium was upgraded to physical therapy facility. In 2017, the project focused on improving the function of sports injury protection. It selected 2 existing sports injury protection centers to be converted into physical therapy facilities. Due to the involvement of a number of schools in this project, a total of 16 sports injury protection stations, 4 sports injury protection centers, and 1 physical therapy facility were established in 2017. The scale of the physical therapy institute provides athletes with sports medicine, rehabilitation, referral (including medical treatment through MSOs), warm-up guidance and assistance, patching services, sports injury prevention and awareness training, and post-training relief.

The planned number of service personnel for 2017 is as follows. 16 sports injury protection stations served a total of 44,047 players, 4 sports injury protection centers served a total of approximately 11,020 players. Sports injury protection units for competition and overseas training served a total of 22,543 players. A grand total of 81,610 players have been served.

(c) Establishment of Competitive Sports Fitness Database

The fitness database for competitive sports was established to help coaches of the city's grassroots training centers understand the performance of the players' competitive sports, which is used as the basis for player selection, guidance, and training. This department actively collected data for the sports fitness database of the city's elite sports players in 2014. By the end of December 2017, we have completed assessment for more than 8,000 sports talents, and constructed analysis models of physical fitness data. The database is categorized by the city's key sports and divided into junior high school group, high school group, adult group and elite group.

9.4 Specify which new agreements with relevant institutions are expected to achieve in case of obtaining the award.

Taking the organization of individual sports events as an example, the Taipei Marathon has been committed to international regulations in the past two years. It has achieved international standards in track and field courses, elite player invitations, number of supply stations, medical aids, media centers, and overall event scale. The development of the Taipei Marathon is planned toward IAAF certification. In 2018, the application of international certification is the primary focus, and will be submitted to the International Track and Field Federation. The Taipei Marathon is expected to obtain the copper standard certification in 2019 as it strives to become a top-tier international marathon event.

Regarding the management of sports venues, the city's sports venues will set up a cooperation agreement with the smart technology industry to introduce smart technology into sports venues after being awarded as a World Capital of Sports. This will allow for make more efficient use of energy, reduce management and maintenance of manpower expenditures, and improve overall convenience of venues.

In terms of international exchange, the city hopes to sign a sports exchange agreement with the cities that have been awarded the World Capital of Sport and establish a collaborative network through forums, workshops or lectures, as well as overseas training, international competitions, and visiting other institutes, etc. The goal is to share relevant experiences in the handling and promotion of competition events, player and coach development, sports science research, stadium operation, and sports industry development.

On the subject of exchange with international organizations, in order to be more in line with international standards, participation in international sports events or related organizations is also the goal of Taipei City. After successful hosting of the 2009 Summer Deaflympics, the 2010 Taipei International Flora Exposition, and the 2017 Taipei Universiade, Taipei City formally joined the International Event Sponsoring Alliance (IAEH) in April 2018. Taipei City also participated in the IAEH visit to Taiwan held by the Sports Department of the Ministry of Education from April 20 to 22, and shared the experience of hosting international events. In the future, Taipei City will also participate in the annual general meeting of the organization and strengthen our country's exchange with various nations and international sports organizations.

PROFILE AND POSSIBLE ACTIVITIES AS A WORLD CAPITAL OF SPORT

10.1 Explain the role of sport in your city/town for achieving the five main aims of the Manifesto of ACES Europe (enjoyment in exercise, willingness to achieve, sense of community, learning fair play, improvement of health).

In recent years, Taipei has spared no effort to promote sports, such as constructing community sports centers, hosting the Taipei Marathon and other running events throughout the year, establishing a public bicycle sharing service (YouBike), creating bike lanes throughout the city, and promoting various international sports events as well as more than 300 citywide and regional sports events. All of these efforts immerse the citizens of Taipei City in the enthusiasm and vitality brought about by the sports activities.

In response to the construction plans of Taipei City in the future, we hope to integrate connotation of sports culture and develop the characteristics of the city, in order to elevate this city to the international stage. In particular, Taipei City has become the global focus of attention after various countries gathered to participate in the 2017 Summer Universiade. Therefore, the active planning and construction of the overall blueprint for the future development of sports in Taipei is regarded as the primary goal. The strategies and methods for achieving the five goals of ACES Europe are as follows:

(1) Enjoyment in exercise

Establish and improve the sports environment, provide comfortable and safe sports space, enhance the quality of the sports environment, build high-quality equipment for the sports capital, and enable the public to enjoy sports and happy sports. Encourage older people to participate in the ranks of sports volunteers and find the pleasure of sports from the volunteer service.

(2) Willingness to achieve

Provide free rental privileges for the city's riverside sports venues to encourage and attract more people to participate in sports. Promote various sports activities in the city, and encourage enthusiastic participation through various preferential measures (such as exemption of registration fees, fee reduction for venue rental, or financial assistance).

(3) Sense of community

Provide feedback channels for the use of public venues, listen to public opinions, and provide information on sports venues (fields). Organize sports group business seminars to gather consensus among sports groups.

(4) Learning fair play

Establish sports venues that meet international standards and administer classification according to site specifications, so that people can compete on the standard venues and conduct fair and impartial competitions according to competition rules.

(5) Improvement of health

Encourage the public to participate in sports through the promotion of sports venues, cultivate regular exercise habits, and promote public health. Organize multiple activities related for senior citizens.

In the future, the city will continue to handle activities to provide sports participation opportunities and propose preferential policies to promote public participation in sports. The 12 district sports centers in 12 administrative districts in Taipei play a very important role. In order to achieve the goal of increasing the population regarding regular exercise habits and promoting the health of the general public, the entrusted operating companies of all centers will provide environment for sports training under the supervision of the municipal government. Sports-related competitions and public lectures will also be held. We have deepened our efforts in cultivating local consciousness and achieving our sports-related visions.

10.2 How does your city/town see its social advantages as a World Capital of Sport?

At present, 87.6% of the citizens in Taipei City engage in sports activities. 34.6% of the population exercises regularly for a weekly average of 3.49 times. The average duration of each exercise is 66.67 minutes. The level of participation has gradually improved year by year. The city has become the vision of a healthy and dynamic sports city. Taipei City is fully aware of the positive influence sports has on urban development, culture, and lifestyle. If we can win the World Capital of Sports 2019 title, we believe that we can enhance the participation of citizens and a sense of urban identity. It will also have an additional impact on the promotion of sports.

10.3 Which initiatives and activities will your city want to contribute to the work of ACES Europe? Provide a list of City Campaigns in relation to the candidature.

(1) Practical contributions:

Taipei City is one of the most progressive and prosperous metropolitan areas in Asia. According to MasterCard's "World's Best Travel City Report" in 2017, Taipei City attracted 7.35 million tourists last year and ranked 15th place among 132 cities in the world. The top five countries for travelers are Japan (36%), China (22%), Hong Kong (9%), United States (8%) and South Korea (5%). In addition, Taipei City has also established sister cities or friendly cities with a number of cities or regions in Asia, such as Shanghai, China, Seoul, South Korea, Manila, the Philippines, and Ulaanbaatar.

In terms of sports exchange, Taipei City alternates yearly with Shanghai to host the Taipei Shanghai Twin Cities Forum and the Straight Cup Basketball Invitation. The city also cooperates with Shanghai, Nanjing, Taipei, and New Taipei City to organize activities for the Urban Cross-Strait Dragon Boat Exchange. Furthermore, the city works with the Shandong Administration of Sports to facilitate overseas training for Taiwanese athletes. It also participates in marathon events and annual exchanges administered by the governments of Japan's Shizuoka Prefecture, Ehime Prefecture, and Iwate Prefecture. If Taipei City can join the ACES Europe network, it is bound to help ACES Europe expand its networks in Asia.

(2) Campaign activities:

- An itinerary for exchange events will be conducted during ACES Europe's visit to Taiwan in early September. Tours of the city's sports venues and press conferences will be arranged.
- Social media engagement from the general public, as well as signatures (letters) of support from both national and municipal sports associations. In addition, athletes from Taipei City will show their support in action (posing for selfies with signs).

Chapter 11.

SCHEDULE CONTAINING THE EVENTS/SPORTS ACTIVITIES PLANNED FOR THE YEAR THE CITY WILL PROBABLY HOLD THE TITLE

11.1 Provide a list of events (including conventions, seminars, congresses, etc.) and measures in connection with the candidacy and the City holding the title as "European Capital, Community, City or Town of Sport".

(1) Related activities and measures to be held after becoming a candidate city:

- Announcement regarding Taipei City's candidacy will be made through media coverage, the mayor's official Facebook account, the municipal government's Line account, and the official website of the Department of Sports, Taipei City Government.
- Announcement will be publicized in the sports events hosted, co-hosted, and co-sponsored by the government and this department.

(2) Related activities and measures to be held after being selected as the capital of the world movement:

- Press release announcement and press conference will be arranged in addition to the award reception in Europe.
- Popular or large-scale sports competitions and events planned for 2019 will be included in the World Capital of Sports 2019 series of events.
- ACES cities will be invited to participate in existing events, such as dragon boat festivals, marathons, and Taipei City Cup tournaments. Spots will be reserved for these cities.
- Promotional banner will be displayed on the official websites of title teams, including Dacin Tigers, Taipei Playone Football Club, Taipei Highwealt Baseball Team.
- With the assistance of ACES Europe, maintain good interaction and contact with the member cities participating in ACES Europe to seek opportunities for urban sports exchanges.
